## HOSTETTER'S STOMACH BITTERS.

ct that, at some period, every mem human-family is subject to disease at disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain dommon sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural-state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for weat civing articles. his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausca, Flatulency, Loss of Appetite, or any Itilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Chelera Morbus, &c., these Bitters have no equal.

Diarrhoa, dysentery or flux, so generally contracted by new settlers, and caused principally.

Diarrhoga, dysentery or finx, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using. HOSTETTER'S STOMACH BITTERS, as per directions on the bettle. Forthis these propers over directions on the bottle. Forthis discase every physician will recommend lafters of some kind; then why not use an article known to be infalible? All nations have their Bitters, as a preventive of disease and strengthener of the sys-tem in general; and among them all there is not to be found a more healthy, people than not be builded a more neutral, people than the Germans, from whom this preparation ema-nated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of needled science. FEVER AND AGUE.—This taying and provok-

disease, which fixes its relentless grasp on body of man, reducing him to a mere shadow in a short time, and rendering him physically and menfally useless, can be driven from the body by the use of HOSTETER'S RENOWNED BITTERS—Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnatisea nor oftend the palate, and render un-necessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is re-moved as specify as is consistent with the pro-duction of a thorough and permanent cure. C For Persons in Advanced Years, who are suffiguing from an enfeebled constitution and portra being those Butters are invaluable as a

main body, these Bitters are invaluable as a next many, these interes are inclusive as a restorative of strength and vigor, and need only be tried to be appreciated. And to a nother while nursing these Bitters are indispensable, especially where the mother's nour-ishment is inadequate to the demands of the l, consequently her strength must yield, here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will

CAUTION .- We cantion the public against using any of the many imitations or counterfeits, but ask HOSTETTER'S CYLEBRATED STORACH BITTERS, and see that each bottle has the words "Dr. J. Hogtetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph
