HOSTETTER'S
STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions, that, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c, these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle For this disease every physician will recommend Bitters of some kind, then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general, and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the cure of medical science

Fever and Ague - This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions And as they neither create nausea nor offend the palate and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system Ladies should by all means try this remedy for all cases of debility and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters will recommend their use in all cases of weakness

CAUTION. We caution the public against using any of the many imitations or counterfeits, but ask for Hostetter's Celebrated Stomach Bitters, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label

☞ Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.

J S. LASH'S PATENT
Straw and Fodder Cutter.

Among the many excellent Straw and Fodder Cutters which have recently come into use the subscriber confidently offers Lash's Patent as embracing points in its construction which render it superior to all others It was patented the 11th of October 1859 and so fully have the expectations of the Patentee been realized, in his efforts to get up a cheap simple and efficient machine, that it has already been adopted by the largest manufacturers in many counties in Pennsylvania, who have warmly expressed their preference for it over other machines, and have purchased County Rights The points in which Lash's Patent Straw and Fodder Cutter is claimed to be superior to all others, are, first its simplicity, being free from all complicated cog gearing, second, that it cuts on a different principle, cutting down on the knife instead of a cutting box requiring less power to work it, so much so that it may be operated by almost any farmer's boy third the power which is gained over other machines by the increase of speed in a heavy fly-wheel thereby greatly relieving the labor of working it, fourth the peculiar construction of the machine so that by simply setting a screw the machine is enabled to cut the straw any desired length from an eighth of an inch upwards The importance of this last improvement will be realized when it is remembered that other machines can only be regulated to cut short or long by changes of gearing or knives at considerable trouble and loss of time

This machine is constructed with rollers for crushing fodder as it passes through and the crank by which he hand machine is worked is on the right hand side, and thus more convenient to the operator

We would also invite particular attention to the fact that in this machine the stationary knife can be taken out and ground when necessary, and replaced in a minute's time by means of set screws thus obviating the difficulty in other machines caused by the cutting bar wearing round on its edge From this fact the rotary knives on my machine may be used four times as long without grinding as on any other one is a great saving of trouble to the farmer Besides these improvements the machine is in all other respects equal to the best now manufactured

The subscriber having purchased the right for Centre County for the purpose of manufacture the machine at Millheim and Bellefonte where all orders will be promptly attended to Two sizes of this machine are built for either hand or horse power The small size which cuts equal to any of the other now in use No 2 is considerably larger which enables it to cut much faster

A dition of IRON pur combustion in Hy ighest Medical An United States, and pre d with it Imput vital energy, pal ms indicate its nec ule case l h all has been tried it has prived absolutely curative in each of the following complaints viz.

In Debility, Nervous Affections, Emanciation Dyspepsia, Constipation, Diarrhœa, Dysentery Incipient Consumption, Scrofulous Tubercal Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c

In case of GENERAL DEBILITY whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible Invalids so long bed ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared on the busy world as if just returned from protracted travel in a distant land Some very signal instances of this kind are attested of female sufferers, emanciated victims of apparent marasmus, sanguineous exhaustion critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name

In Nervous Affections of all kinds, and for reasons familiar to medical men its operation must necessarily be salutary for unlike the old oxide it is vigorously tonic without being exciting and overheating, and gently, regularly aperient even in the most obstinate case of costiveness without ever being a gastric purgative, or inflicting a disagreeable sensation

It is this latter property, among others, which makes it so remarkable and permanent a remedy for *Piles* upon it also appears to exert a distinct and specific action by dispersing the local tendency which forms them

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Constipation

In unchecked Diarrhœa, even when advanced to Dysentary, confirmed, emaciating and apparently malignant the effects have been equally decisive and astonishing

In local pains, loss of flesh and strength debilitating cough and remittent hectic which generally indicate Incipient Consumption this remedy has allayed the alarm of friends and physicians in several very gratifying and interesting instances

In Scrofulous Tuberculosis this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine without any of their well known liabilities

The attention of females cannot be too confidently invited to their *mildy* and *restorative* in the cases peculiarly affecting them

In Rheumatism both chronic and inflammatory in the latter however more decidedly it has invariably well reported both as alleviating pain and reducing the swellings and stiffness of the joints and muscles

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative and its progress in the new settlements of the West will probably be one of high renown and useful ness

No remedy has ever been discovered in the whole history of medicine which exerts such prompt happy and fully restorative effects Good appetite complete digestion rapid acquisition of strength with an unusual disposition for active and cheerful exercise immediately follow its use
