

Jones cured me of bronchitis and affection of the heart after I had tried the physicians of Philadelphia and Europe. I commend him to the afflicted.
Mrs. M. DAWSON, Germantown, Pa.

Dr. Jones inserted an eye for me which moves and appears natural, and gives me no pain or inconvenience.
ALEXANDER STEWART, Altoona, Blair county, Pa.

Dr. Jones operated on my right eye, which was badly disfigured. He has rendered the sight and appearance both natural.
JAMES KACY, Altoona, Blair county, Pa.

I have been afflicted and suffered more than a hundred deaths, with diseases that two-thirds of the ladies are afflicted with. I had given up doctoring, and was pronounced incurable; and hearing of and seeing so many wonderful cures which this skillful gentleman had performed, I was induced to carefully read his circular on both sides. I became convinced that he must be a physician of extraordinary attainments. I went to his office, found his diplomas there suspended, and everything as stated on his circular. I resolved to try Dr. Jones, anyhow—though my friends tried to dissuade me. He appeared to be high in his charges, but I took treatment for six weeks. He is the cheapest and the best doctor that I have ever met, for he has so perfectly cured me that I am a new woman. I had spent \$700 with other doctors who did not cure me. I consider that what Dr. Jones cannot cure, can't be cured.
Rev. Mrs. S. STILLMAN, Duncansville, Pa.

Dr. Jones cured me of rheumatism and deafness of 12 years standing, after I had been pronounced incurable by the head doctor in the State.
ARCHY BALDWIN, Altoona, Blair county, Pa.

I was disfigured with hair lip and cross eye from my youth. Dr. Jones, in July last, operated for both—straightening my eyes and removing the deformity of my lip. I shall ever remember him with gratitude.
HENRY BRYMIE, No. 21, Atwood St., Phil'a.

Dr. Jones cured me of amaurosis of ten years standing—I was entirely blind, and he has enabled me to see and read.
JAMES WHARTON, Montgomery county, Pa.

EYE AND EAR

AND DISEASES OF THE
ORGANS OF SENSE & NERVOUS SYSTEM.

DR. JONES,

Chief Physician & Surgeon to Jones' Ear & Eye Institution, 137-4th Ave., N. Y.

Has been persuaded to make a professional visit to some of the principal cities in the United States, thereby to bring his skill within the reach of thousands who could not avail themselves of it in New York. (His place in New York will be temporarily filled by his Uncle, Dr. W. S. Jones.) The success of Dr. Johannes Jones, both in the Surgical and medical treatment of the Eye and Ear wherever he has practiced, has been hailed with joy.

The press has recorded many of his skillful operations, reminding the people that they cannot always have Dr. Jones with them, and not to delay if they need his services. Dr. Jones will practice

At the Conrad House, Bellefonte, Pa., on the 15th and remain until the 21st of April.

Dr. Jones has had a thorough Medical Education in both America and Europe, and is considered, by those who know him best, to be the most scientific and successful Oculist and Aurist in the world. He is a graduate of the Old and New School Medical Colleges, and of an Eye and Ear College. His Diplomas and Documents hang in his Office. Dr. J. is prepared off hand to perform any operation that can be performed in any country on the globe—but he cures by gentle and mild remedies most of the complaints for which others use the knife.

HE INSERTS ARTIFICIAL EYES WITHOUT PAIN, TO MOVE AND APPEAR AS THE NATURAL EYE.

He has hundreds with him, and is prepared to suit all cases. He introduces artificial ear drums where the natural drum is perforated or destroyed. Discharges from the ear and noise in the head—no matter what the cause may have been, or of how long standing—his remedies do not fail to cure. Catarrhal affections and diseases of the throat he cures successfully. He applies electricity in many cases as an adjuvant, and his instruments for the application of this agent, and for examining the eye and ear, enable him to detect with accuracy the most obscure diseases, as well as to cure the same. Besides having twice the usual advantages in everything that pertains to the science of Medicine, he does not look upon any one as a rival, much less as an equal, in curing diseases of the Ear and Eye. He has had the advantage of every civilized country to perfect himself in Ophthalmic and Aural surgery; he has devoted his life and fortune to the eye and ear.

Dr. JONES's treatment is of a specific nature, and neither debilitating nor painful, and so far in advance of the science of the age, that he views the painful and severe remedies commonly used, as both dangerous and barbarous in the extreme. He performs all kinds of operations without pain, cross eyes made straight without the least danger in two minutes; cataracts operated for, specks and tumors removed, and everything pertaining to the eye and ear treated and operated for, in the most skillful manner.—*Western ophthalmia or inflamed eyes peculiar to the prairies of the West, Dr. J. cures with mild and pleasant remedies heretofore unknown.*

The English Magnifying Ear Lamp and French Ophthalmoscope,

WITH POWERFUL AMERICAN LENSES, enable Professor Jones to detect by night or day, the most deep-seated diseases of the EYE and Ear, with a degree of certainty that years of experience cannot accomplish without them.

Dr. Jones has a case of 500 different kinds of medicines with him, comprising the best from every part of the world, with which he cures nearly all of the OLD STANDING (chronic) diseases that afflict both sexes and persons of every age, without any inconvenience or neglect of business.

CROSS EYES MADE STRAIGHT AND NATURAL.

This operation can be performed in all cases without fail, and Prof. Jones guarantees to do it successfully in old or young. Strabismus disfigures the person so afflicted very much, and it also renders the eye practically of no use. The operation restores sight and removes the disfiguration. An operation on one eye does not affect the other—if any Doctor tells you so you can with safety impute the assertion to his ignorance. Dr. J. operates for enlarged tonsils, and has instruments of an improved kind for that express purpose; also—*Artificial Pupil, Ptosis, Pterygium, Naevi*, (or mother's mark), *Excantus, Excantus, Tumors* in or about the Eye and Ear, *Cancers* of nose and face, and is prepared also for all kinds of Plastic operations, *Watery Eye* and *Fistula Lachrymalis*, Dr. J. treats with success, and is also prepared to introduce gold or silver tubes where it is necessary. Prof. Jones' Instruments are superior to those of any Surgeon in the U. S., and are in keeping with the mechanism and science of the age and give him a decided advantage in all difficult operations, over other good Surgeons, not one in a thousand of whom possess, such a useful, modern and magnificent case of costly Surgical Tools.

SPECTACLES—with brilliant clear and beautiful lenses cut from Scotch and Brazilian pebbles Australian and California brilliants—to correct those conditions of imperfect vision that medical or Surgical skill can not reach; and for near and far sighted persons as well as those whose eyes have become flattened by age. Half the advantage of spectacles is lost by not having those that are adapted to your eyes. It is therefore most desirable to have your Spectacles or pebbles selected by a Scientific Oculist and Optician like Dr. Jones.

Price of spectacles three dollars, and upward. His prices for medical treatment or Surgical and other operations are from \$5 to \$500, in the great majority of cases, his prices are from \$15 to \$40. His terms are cash.

KIND READER—Time will be well employed in perusing both sides of this Circular, and you may do much good by sending it to any afflicted person you may know.

Permanent address—

JOHANNES A. JONES M. D.
Jones' Eye and Ear Institution, at 137-4th Avenue, N. Y.

P. S. TESTIMONIALS, &c., ON THE OPPOSITE PAGE.

Dr. Jones will be at the Conrad House, Bellefonte, from the 15th till 21st of April
