about to be appointed Consul to Paris:

"The recent tariff was enacted under the most extraordinary circumstances. It was brought forward and carnestly pressed at the first session of the last Congress, and at a period of remarkable prosperity in every branch of industry. At no previous time in the history of the country had the manufacturing interest been so successful as from 1850 to 1860. The population of the manufacturing States of Massachusetts, Connecticut, Rhode Island, New Jersey and Pennsylvania had increased in this decade, 1,144,645 against 1,060,346 from 1840 to 1850. The New England States never made where money than in the past ten years.—

Their great manufacturing districts never 1850. The New England States never made hore money than in the past ten years.—
Their great manufacturing districts never gained so rapidly in population. The same may be said of New Jersey and Pennsylvania. The anthacite coal trade of that State had increased from 3,200,000 tons in 1850, to ever 8,000,000 tons in 1860, or at the rate of nearly 200 per cent.

No such depression existed in the manufacturing from the past ten years.

RET NEIDIGH, both of Harris township.

No such depression existed in the manufacturing interest as to call for an extraordinary increase of duties. It was a snap dinary increase of duties. It was a snap judgment in favor of a comparatively small knot of interested manufacturers. The country at large did not desire it. We never made such progress in population, wealth and amount of production, as from 1850 to 1860. No further duty on the great mass of importations was needed for protection, add none for revenue, unless we reduced the free list, and taxed more heavily articles we must have and capacity. must have and cannot produce.

Here is proof positive that the Republicans were false and hypocritical in their professions last fall in favor of a protective fariff. They got what they asked for, and now the Editors and Orators of the Republican school admit that it was obtained by a "snap judgment," was a "political blunder without parallel," and want an extra session of Congress called to repeal it.

RETRENCHMENT AND REFORM.—Our Republican Legislature is great on "retrenchment and reform." About a month ago they voted to raise a flag over the Capital, and managed to make the job coat the State somewhere between five and ten thousand dollars—when one hundred and fifty dollars would have been abundantly sufficient.—Then they raised the pasters and folders to Assistant door keepers, and increased their establishment has been that the outside of our edition was worked off.

And an eminent set of changers they got into the Legislature. They know about as well as anybody ought to how to change money out of one set of hands into another—and never once out of their own largest they have been going this winter, it would take only a few years more to "reform" the State from the condition of prosperity in which they found it into bankruptey. But then the people last fall clamored for a "change," so this exceedingly liberal disbursement of the charge of the State must be all right, of course.
