Our citizens have for many years been in the habit of going to distant cities for their Bugles and Carriages, thus depreciating discountenancing our home manufactories, and giving to foreign establishments the patronage that should properly be extended to our own. The neatness of the foreign gave it the preference, over the home manufactured vehicle, and little attention was paid to their durability. I have just opened a manufacturey on Penn street near Bislop, having had an extensive and varied experence at Coach making in all its departments, feel confident that I can turn out work combining with a finish equal to that of any city establishment a degree of durability never found in city work I respectfully invite inspection of my work by persons desirous to purchase.
