RESTORING THE BALD AND GRAY

Kany, since the great discovery of Prof. Wood's have attempted not only to imitate his resterative to be profess to have discovered something the would produce results it elantical; but they have all some and gone, being surried away by the wonderful results of Prof. Wood's proparation and have been forced to leave the field to its resistless sway. Read the following:

Prov O. J. Wood & Co: Gents:—The letter by wrote you in 1856, one or will shall hair Restorative, and which you have published in this velenity said elsowhere, has given rise to sammerous onquiries touching the fagts in the case. The enquiries are, first, is in the communication and name, and of all therein contained; third each my hair still continue to be ingoed order and of natural color? To all I can and do answer invariably yes. My hair is even better than in any stage of my life for 40 years past, more soft, thrift, ty, and better colored; the same is true of my lowiskers, and the only cause why it is not generally true, is that the substance is washed of by frequent abolution of the face, when if care were weld by whing the face is close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parls of New England, asking me if my hair still ontinues to be good; as there is so much fraud in the manufacture and sale of various compounds as well as this, it has, no doubt been basely imitated and been used, not only without any good effect, but to absolute in jury. I have not used any of your Restorative of any account for some months, and yet my hair is as good as ever, and hundreds have exan ined it with surprise, as I am now of years old and not agray hair in my head or on my face; and to prove this fact, I send you a lock of my hair taken of the province of the continuence of the livine, or any general full; if any of the most of the work of the fall tree is caused by the impure arti

PROF. O. J. Wood: Dear sir.—I would certainly be doing you a great injustice not to make known to the world, the wonderful, as well as the enexpected result I have experienced from using ear bottle of your Hair Restorative. After using every kind of Restorative extant, but without success, and finding my head nearly destitute of hair, I was finally induced to try a bottle of your Hair Restorative. Now, candor and justice compel me to announce to whoever may read this, that I now possess a new and beautiful head of hair, which I proneunce richer and handsomer than the original was. I will therefore take occasion to recemmend this invaluable remedy to ALL who may feel the necessity of it.

BLOOD "RENOVATOR.

Ts precisely what its name indicates, r, while pleasant to the taste, it is revivifying, exhilarating, and strongthening to the vital powers. It also revivifies, rehinates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever effered to the world in a popular forir is one to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet, so perfectly adaptated to as to act in perfect accordance with the laws of nature, and hence soothe the vacakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfertly exhilarating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables and those thoroughly combining powerful tonic and soothing properties, and consequently can never in jure. Such a remedy has long been felt to be a discretum in the medical world both by the thoroughly skilled in medical science, and sloo by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly reliable. Such for example, as the following: Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability. Neuralgia. Palpitation of the Heart, Melancholy, Hypocondria, Night Sweats, Languor Graddiness, and all that class of eness, so fearfully fatal if unattended to in time, called Female weakness and Irragularities. Also, Liver Derangement of the Urinary Organs, Pain in the Back, Side and between the Should.

and indeed we mi enumerate manly more still, but we he space only to say, it will not only cure debility following Chills and Fever, I preent all attacks arising from Miasma Influences, and cure the diseases at one if already attacked. And as it acts rectly and persistantly more than the state of the st Influences, and cure the diseases at once, if already attacked. And as it acts directly and persistently upon the biliary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deliterious consequences following upon change of climate and water; hence all travelers should have a bottle with them and all should take a table spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers, literary men. And all ladies not accustomed to much out door exercise, should always use it. If they will they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist without health, and
