The First at Manassas.—Our attention has been called to the fact, that credit is given to a New Jersey regiment as being the first at Manassas, whereas the credit is due to the 81st Pennsylvania, commanded by Col. Stiles, of Company B. with his brave men alone, was, by some misunderstanding in the order given, thrown three miles beyond the regular pickets. As soon as Brigadier General Howard heard of the misunderstanding he sent messeagers after them; but General Howard heard of the misunderstanding he sent messengers after them; but Capt. Stiles and his men had already succeeded in making the first route of the enemy's pickets. On the night of the 6th they occupied the ground the enemy did in the morning. It was not until the morning of the 8th that the 81st was relieved by the New Jersey 3d.

OBITUARY.

ANNA V., consort of WILLIAM J. STEIN, born, 1830-died, April 1st, 1862.

Taylor has thus truthfully and beautifully observed, that "Life is a mighty change that is made by the death of every person; it is visible to us who are alive. It is, at best, but a fleeting shadow-a grain of sand from the hour-glass of time-to-day animated with health and vigor-to-morrow emaciated-withered-dying.

The deceased was a true christian, a tender and devoted wife, an affectionate daugh

Truly, she was the "danghter of affliction," having lingered for years with that terrible disease-Consumption-at times undergoing the most intense suffering, yet bearing up with the caim resignation of a A TRUSTY BEAU.—A lady last night was who "tempers the win! to the shora lamb" who "tempers the win! to the shora lamb" and whose ways are inscruable and full of wisdom. Death the . King of Terrors,' had no terror for her. She passed away calmly and peacefully, in the noontide of a life well spent, to that bright land above, leaving behind a large number of relatives and friends to mourn her early death.

Yes, Maggie—thy soul hath left this tenement of clay.

For a brighter sphere, where shines eternal day;
This wouldst not always live on this cold earth;
Ah! thou hast semething now of priceless worth! worth!
A seat in Heaven!

Thou art gone, yet we wish thee not back again!

A few minutes previous to her dissolution when asked if she would have a sup of cold water, she replied: "I will wait till I sup in Heeven." She desired that her thoughts might not be drawn from Heaven. Her actions seemed to say-

" Vain world, farewell to you-Heaven is my native air;
I bid my friends a short adieu,
Impatient to be there.

I feel my powers released
From their old fleshy clod;
Fair guardians, bear me up in haste,
And set me near my God."

And for the speedy cure of the following complaints:
Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Bells, Blains, and all Skin Discasses.

Oakland, Ind., 6th June, 1850.

J. C. Aren & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me, laving inherited a Scrofulous infection, I have enforced from it in various ways for years. Somotimes it burst out in Ulears on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke ent on my head and care, sometimes beyond description. I tried many neuticines and several person description, and the covered my scalp and sare with one sore, which was painful and loathsome beyond description. I tried many neuticines and several person description, it ried may neuticines and several person description. I tried may neuticines and several person description, it is not as proposed an atterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnatia and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin son began to form under the scab, which after a while fell off. My skin is now clear, and I know by my cellings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apsolies of the age, and remain ever gratefully.

Edward S. New Orleans, 25th August, 1859.

Dr. J. C. Ater. Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Disease. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers headed, and he is well again, not of course without the content of the same disease. I would not be sufficiently from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Too much cannot be said of your Pills for the cure of certimeness. Hothers of our featurily have found them as elicacious as I have, they should join me in prodaining it for the benefit of the multitudes who suffer from that complaint, which, allhough had enough in itself, is the propenior of others that are worse. I believe outcomes to originate in the liver, but your kills affect that organ and enre the disease.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the national screekies when wholly or partially suppressed, and also very effectual to cleans the stomach and expel worms. They are so much the best physic we have that I resummend no other to my patients.
