WHAT FOLKS ABOARD THINK OF OUR WORTHY MAYOR.—The following article, although rather harsh in some of its expressions, we have concluded to publish, in order to show the estimation in which our worthy Chief Burgess is held by the people of our localities since his recent unfortunate article advocating the knock-down policy of the "Roughs" of Baltimore:

"Every traitor who utters a disloyal sentiment on the streets of Baltimore, is at once knocked down by a loyal man. The same practice would have a beneficial effect in parts of Centre county."

So says the editor of the Central Press, Chief Burgess of the Borough of Bellefonte. This editor we do not personally know, but it cannot be possible that he is an honest or decent man. To show his inconsistency, we will quote from an official proclamation he has just issued as the Chief Burgess of Bellefonte. In his proclamation he says:

"I, J. G. Kurtz, Chief Burgess of the aforesaid Borough, make proclamation that I will enforce the laws of the said Borough to their fullest extent against any and all persons who may be apprehended in perpetrating any of the following described offenses, as well as all other misdemeanors for the punishment of which laws have been made and provided:

1st. Misdemeanors and malicious mischief against any citizen or citizens, or their premises.

2d. The congregating of lawless crowds of boys and men, who may insult, molest or abuse either lady or gentleman, regardless as to the color or condition."

He recommends knocking down men in his dirty paper, but in his official proclamation he threatens the severest penalty for similar acts done in certain parts of Centre county, he, of course, means honest and upright democrats who dare to advocate free press, and the Constitution as it is, and the Union as it was. Such a man is nothing but a damned scoundrel, and we are surprised that any people would elect such a brutal tyrant to the office of Chief Burgess. He is the first man that ought to be put to jail, as he is mean enough himself to recommend the commission of crime against the laws. Perhaps he does not regard knocking down men as a "mild or malicious mischief," especially if they be democrats; but we presume the democrats will differ with him. Such a scoundrel deserves a pelting himself.—Selling Times.

AN INCIDENT.—An incident was related to us on Saturday last, which, for degradation and disgust, exceeds anything we ever heard of. A white man drove up to a larger school, and alongside of him in the carriage was a darky as black as the ace of spades. After he had halted, the darky was sent inside of the school for a "poney glass of beer." The keeper not understanding the "coon" correctly, sent out to his comrade in the vehicle a large glass. The man stated to the proprietor that the glass held too much for his delicate nature, and handed to the nigger first to drink half the contents, and he would finish the residue. This proceeding the proprietor naturally objected to, and took the glass away from the nigger, which excited the indignation of this individual who thinks that "all men are created free and equal." The keeper rightfully informed him "that he was worse than a brute."

A man that will so far forget himself as to associate and drink with a nigger is too contemptible and ignoble a wretch to notice. He should be eschewed by every respectable and honorable man. This is what the abolitionists are aiming at. They want equal rights. They desire free associations with the darky; they want to admit them as representatives in the halls of Congress; they wish to reduce society to such a low level that intermarriages will be the result. Let the calm-thinking voters of Pennsylvania arise from their lethargy and crush the mad politicians who are laboring so strenuously for such a result.—Patriot and Union.

ACCIDENT.—We understand that a little son of ex-sheriff Lingle, of this place, was severely injured by falling from the second story of the new hotel now building on Bishop street, by Mr. Cummings. It seems that the little fellow was up in the building looking around with the curiosity so natural to children, when he accidentally fell through the joists, to the cellar beneath, breaking three of his ribs, knocking out two or three teeth, and otherwise injuring himself seriously. We understand that the attending physician is of the opinion that the poor little fellow is injured internally, and that his recovery is somewhat doubtful.

CHARLEY BURNSIDE.—This gentleman and former citizen of this place, arrived home from the army on Tuesday evening last, in the Tyrone stage. Mr. Burnside belonged to the command of the gallant Mullan, and was wounded in the arm at the battle of Lexington. He is now suffering from an accidental wound in the knee, received in camp sometime since, which compels him to go about upon crutches. He is now home upon furlough. His old friends and acquaintances, as well as his immediate relatives will, no doubt, be glad gratified to learn of his safe arrival amongst us once more.

CARD PICTURES.—Mr. J. S. Barnhart has just received a new Photographic Instrument by which the process of taking Card pictures is greatly facilitated. These instruments are manufactured expressly for taking Photographs, and consequently pictures taken by them are far superior to those taken by the ordinary appliances. Don't forget that the place to get good and true pictures is at Barnhart's wagon near the Court House. He has a large stock of Photographic Albums for sale, and is selling them at greatly reduced prices.

PRELUDE.—We understand that quite a nice little Pre-Nuptial ceremony of Saturday, the 7th instant, in Weaver's woods, near Pleasant Gap, along the old Lewisstown road. We learn that the affair passed off pleasantly, with nothing to mar the festivities of the occasion, save a slight rain in the afternoon.

THE SPRINKLER.—Mr. J. H. Myers made his appearance with the street sprinkler on Monday last. It is a very neat affair, and will no doubt do good service during the summer months. Some express the opinion that it is hardly wide enough to answer the purpose altogether; but this is an objection that we do not think will hold good, for the simple reason that where it does sprinkle it sprinkles thoroughly, and as it is the calculation to keep the "machine" running pretty much all day, it cannot fail to keep down the dust. We'll bet our hat that it will make it do its duty, and it only remains now for the citizens to theirs.

PROCLAMATION.

WHEREAS, in response to the numerous complaints lodged by citizens of this Borough with the last ten days, asking protection of the laws and authorities for such Borough, enacted and submitted for such purpose, that their premises may be spared from the injuries and destruction of evil disposed persons, as well as from personal injuries, insults and annoyances on the public streets; and whereas, by the authority vested in the Chief Burgess of the Borough of Bellefonte, having jurisdiction in such offenses, and it being obligatory upon said officer rigidly to enforce the ordinances of said Corporation; Therefore, I, J. G. Kurtz, Chief Burgess of the aforesaid Borough, do hereby make proclamation that I will enforce the laws of the said Borough to their fullest extent against any and all persons who may be apprehended in perpetrating any of the following described offenses, as well as all other misdemeanors for the punishment of which laws have been made and provided:

1st. Riotous crowds upon the streets, bar-rooms, saloons, drinking houses, or elsewhere, where the public peace is disturbed.

2d. Misdemeanors and malicious mischief against any citizen or citizens, or their premises.

3d. The congregating of lawless crowds of boys and men, who may insult, molest or abuse either lady or gentleman, regardless as to the color or condition."

PARABOLA SPECTACLES. Superior to any others in use, constructed in accordance with the LAW OF NATURE; is the peculiar form of a Concave-Convex Ellipse, admirably adapted to the organs of Sight and perfectly adapted to the Eye. Altogether the best artificial HELP TO THE HUMAN VISION ever invented. When there is lameness it is natural to use a cane—why not render assistance to that valuable organ, the Eye, without need?
