LOCAL MATTERS.

THINKS AHOOT.—A number of clothes

lines, and hen roosts have been visited in

town lately, and their contents abstracted.

The criminals are suspected, and had better

keep a sharp look-out. There is nothing

meaner or more contemptible than ap-

propriating another man's shirt or stealing

a chicken when it's asleep.

COURT.—Next Monday Court will

again in session at this place. The pros-

pects that it will be a very interesting

session, and we presume a large number

of people will be in town. Our landlords

are making extensive preparations, and

there will be lots of good things for the

inner man. We hope to see our subscribers

all in town with their pockets full of

rocks, and expect to see them up in the

Watkinson Office. The latch string is

always out, and we trust they will not

be backward in giving it a pull.

HARPER'S WEEKLY.—We are in receipt

of this splendid periodical, the first of its

class in America. The contributors to Harper's

Weekly are all of a high order of talent, and

the result is that its contents are of the

most interesting character. Its pictorial

illustrations are gotten up by the first

artists in America, and no pains or expense

is spared, to make it acceptable to the

reading public. Its engravings of the

various battles and scenes of the war, and

of the leading Generals and other officers

of the army, are both North and South, are

very fine, and are alone worth the price

of the paper, which is only \$2.50 per

annum, Address Harper Brothers,

Franklin square, New York.

“OLD JOHN MOWAT.”—The original

manufacturer of Moffat's celebrated

“vegetable Lint Pills and Phloxin”

owing to the death of his son, W. B. M. J. at,

has resumed personal supervision of the

preparation and compounding of these

valuable medicines. In order that the public

may not be imposed upon by counterfeiters,

“new and costly labels,” executed in the

highest style of bank note engraving, and

entirely different in design from the old

labels, have been prepared. By means of

these old labels, the doctor hopes to

protect the public from imposition.

Address orders and letters to John

Moffat, at No. 32 East Seventeenth Street

N. Y. City.

LABORERS IN A PRINTING OFFICE.—The

composing room of a printing office is

not the place to tell long stories, or argue

points metaphysical. A printing office is

like a school; it can have no interlopers,

hangers on, or twaddlers, without a serious

inconvenience, to say nothing of loss of

time, which is just as good as gold to the

## “Resistance to Tyrants is obedi-

ence to God.”

The Cleveland Leader says that the

following document has been

extensively circulated through-

out the State of Illinois:

“To all the patriotic men of the

United States:—Whereas, the repeated

violations of the constitution

of the United States by the

present party in power, do most

seriously threaten the liberties

of the people and tend to the

destruction of constitutional liberty,

the great anchor of a democratic

Republic, we who are hereby

united in order to check those

outrages upon the right of loyal citi-

zens, and to prevent the Govern-

ment from degenerating to a mili-

tary despotism, to be controlled

by unscrupulous fanatics, do

pledge our lives, our property, and

our sacred honor” to maintain

the constitutional liberty, to the

extent guaranteed by our funda-

mental laws, and determine that

no more citizens shall be illegally

arrested and detained, and that

we will resist such usurpation

in every legal and peaceable

mode, and in the event of defeat,

we will walk back upon the God-

given right—physical resistance

to despotic power. As a last re-

sult, we will raise the flag of our

fathers, and call congenial spirits

of the United States and elsewhere

upon the broad earth to come to

the rescue of individual right,

and plant them upon the firm basis

designed by our Father of his

Country and his compatriots

of '76.

We hope this is true (although it

comes from very questionable

authority) and that it will much

more extensively act upon than

circulated. There should be

leagues of the people, of those

who desire to preserve their necks

from the yoke of despotism, in

every township and school district

in the broad land teach the ty-

rants by our armed league that

the white men of this country

are determined to be FREE

and that no King, Emperor, Czar

or Military Dictator shall raise

power upon the ruins of liberty.

Teach them that we are deter-

mined to preserve the Constitu-

tion, restore the Union and re-

tain our own liberties.—Ashland

Union.

There is no class of politicians

who feel the defeat of Abolition-

ism at the polls so keenly as those

who, while professing great at-

tachment to the principles of Dem-

ocracy, were found in the Abolition

ranks battling for the eleva-

tion of the negro to social and

political equality. These men

now look as if they had lost all

their friends. Believing that the

Abolitionists would carry the

State, and having always been

politicians of easy virtue, they

joined heart and hand with the

members of the Union, in the hope

of securing a share of public

plunder. In this there is a strong

probability that they will prove

unsuccessful. The Democrats

duty as the Constitutional Chief

Magistrate. They are voices
