P. GRAY MEEK.

GEORGE W. WOODWARD OF LUZERNE. FOR JUDGE OF THE SUPREME COURT

WALTER H. LOWRIE

Andrew G. Cartin and the Governorship

Sometime since, prior to the adjournment of the Legislature Gov. Andrew G. Curtin sent a message to that body, not only inti mating, but most explicitly avowing his intention not to again become a candidate for re-nomination to the Gubernatorial chair. The reasons assigned for this, to the people, most gratifying and highly commendable course, were failing health and the anticipation of an important and lucrative position under the Administration at Wash ington. Since that time, however, the mind of his Excellency, the Governor.seems to have changed and to day we find him the most prominent among the candidates of his party for the office of Chief Magistrate of the good old Commonwealth of Pennsylvania. Surely, all is not rightsomething is "rotten in Denmark," else would our worthy Gov, have aghered to his original intention. Perhaps, some other nanion has usurped the place which Andrew G. once occupied in the affections of our "Father Abraham," and the slighted Governor sees the rich prize of the Ministry to S; ain now slipping from his grasp. Or, perhaps, the Governer, not entirely lost to all sense of honor and the dignity of his however, known to the public, reasserted his manhood and endeavored to regain a portion of that esteem which should always obtain among the people for the dignified nearly three years, been the unworthy incumbent. For this, if such may have been the case, which we doubt, he has probably teen ostracised and compelled to live away from the smiles and favors of the great Tvgravitude on the part of the honest man at Washington, to one of the most subservient of his tools : for surely, if ever one man deserved favor for groveling in the dust at another man's feet, Andrew G. Curtin should have the favors of Abraham Lincoln. But, in despair at the gloomy prospect of official favor, we find the poor Executive catching at a straw, and grasping convulsively after another three years term

This is a spectacle to excite the pity and contempt of honorable men of all parties and is most humiliating to the freemen of the Keystone State. It was not enough that he get should down in the dust, at the feet of the powers that be, dragging the dignity ard honor of the great State of Pennsylvania with him, to crave official favor, but now he must needs make this last contemptible exhibition of his own lit leness to the complete disgust of every lover of upright and ndependent manhood

of "Governor and Commander-in-Chief."

But the handwriting is on the wall and the finger of destiny is pointing to the "Mene mene, tekel upharsin," of his political over throw. It matters but little who may be the candidate of the Republican party, the election of Judge Woodward is a necessity which the people, see feel and appreciate, and they will place him triumphantly in the chair which Andrew G. Curtin is not and has never been competent to ft.1.

War and Riot.

On Monday last a terrific riot broke out in New York city, resulting thus far in the death of some fitty persons and the destruc tion of thousands of dollars worth of property. The cause was opposition to the conscription act. From the last advices the rioters were not subdued. This is the natural result of the example set by Lincoln and his administration, of trampling upon the Cons titution and laws, and of the doctrine which they have been preaching for two years, that "There is a higher law" than Constitutions Hall. Notwithstanding they know this, and acts of Congress. We hope the riot may be suppressed, and law and order res red, but must confess that we look upo it as merely the outcropings of the "madnes which welcomes anarchy," which will proceed to the point of "dispair which welcome

It is reported that Meade took 8000 prison ers at Gettysburg. It is said Lee has re crossed the Potomac. Vicksburg surrendered to Grant July 4th. Rumor says Port Hudson has also surrendered.

Port Hudson has also surrendered.

Never before have the prospects of the Democracy in the old Keystone State been so flattering as to-day. From all parts and freemen, rallying to our glorious old standard, and shouting aloud for Woodward and and reques that have so shanefully deceived them. The war journals seem to be feeling the pulse of the Peace party with the utmost solicitude. With them, the blast of a trumpet or the tramp of a regiment through our thoroughfares signifies a sudden extinction of all inclinations of a pacific nature.
