TRAITORS. Not long since a lady residing in the State of New York, while en route for Toledo to visit a friend, met in our depot the lady whom she was wishing to see. Luckily the latter lady was on her way home, and thus the two chanced to arise:

ToledoHave you any 'Copperhead' Democrats in New York? New York-Well, no, none that I ever heard of.

Toledo-Have you any 'Butternuts' or 'Secessionists' there? New York-I think not. I never anything about them; but perhaps they are known by some other name.

Toledo-Well, have you any traitors in your section? New York-Traitors? Oh. yes, plenty of them; but we call them by a different name in New York, we call them Abo-

litionists there. The Toledo lady was perfectly dumbfounded by this reply, and had nothing more to say.

From that time until arriving in Toledo the subject of "copperheads' and 'traitors' was totally eschewed.

Bitters.

From Rev. J. Newton Brown, D. D., Editor of the Encyclopedia of Religious Knowledge.

Although not disposed to favor or recommend Patent Medicines in general, through distaust of their ingredients and effects. I yet know of no sufficient reasons why a man may not 'testify to the benefits he believes to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this the more readily in regard to 'Hoofland's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend Robert Shoemaker, Esq., for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from great and long continued debility. The use of three bottles of these bitters, at the beginning of the present year, was followed by evident relief, and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despared of regaining I therefore thank God and my friend for directing me to the use of them.

We call the attention of all having friends or relatives in the army, to the fact that Hoofland's German Bitters will cure nine-tenths of the diseases induced by exposures and privations incident to camp life. In the lists, pu'lished almost daily in the newspapers, on the arrival of the sick, it will be noticed that a very large proportion are suffering from debility. Every case of that kind can be readily cured by Hoofland's German Bitters. We have no hesitation in saying that, if these Bitters were freely used among our soldiers hundreds of lives might be saved that otherwise would be lost

The proprietors are daily receiving thankful letters from sufferers in the army and hospitals, who have been restored to health by the use of these Bitters, sent to them by their friends.
