BAD ACCIDENT A little obild, belonging to Mr. Lewis Hans, of Roopsburg, while playing with a large dipper, in the brewery, on Friday last, fell into a vat, full of boiling water and was scalded so badly that it expired in a few hours after.

Several very pleasant cotillion 'parties came of during the early part of last week in Snowshop, in honor of the soldiers that were home on furlough. The first was held at our friend Uzzles, who knows how to conduct such affairs. The second at Bequire Yagers, who can enjoy the "fun" as well as anybody else.

Theremarkable properties of Brown's Broachial Troches have been thoroughly tested since first introduced. The demand for them has steadily increased, and purely upon their own merits, they have found favor with those, who, from Pulmonary, Bronchial, or Asthmatic complaints require them. For Coughs, Colds, Bronchitis, Asthma, and Influence, they are entirely afficacious, removing all obstructions, and increasing at once the power and flexibility

The question of building a Market House in this place, is being considerably agitated by some of our citizens at present. If it is to be a joint stock arrangement as some propose, we are in favor of it. If the Borough Authorities are to do the business, and the tenents in town pay the expenses, then we are not for it. Bellefonte needs a Market House, it will be of benefit to her citizens, and to those who have marketing for sale. We should like to see a meeting shoe township, having been granted to the uncalled for the purpose of taking the matter into consideration. Who will make the aud those having claims to present them, duly move?

INVALIDSII IRON IN THE BLOOD!

It is well known to the medical profession that Iron is the vital principle or life plement of the blood. This is derived chiefly from the food we eat; but if the food is not properly digested, or if, from any cause whalever, the necessary quantity of iron is not taken into the circulation, or becomes reduced, the whole system suffers. The bad blood will irritate the heart, will clog up the lungs, will stupify the brain, will obstruct the liver, and will send its disease producing elemant to all parts of the system, and every one will suffer in whatever brigan may be predisposed to disease.
