Owing to the very high price of Coffee, and the great difficulty in procuring a good uni form and reliable article, our customers have o'tn expressed a wigh that they could be sup-plied from first hands. It was the intention of THE GREAT MERICAN-TEA GOMPANY to do a strictly Tea business, but as we have had some circularity at a distance that have raised upon us to supply them exclusively with Tea and Coffee, it being inconvenient for them to come to New York. The Great Tea and Coffee Emporium of this country—and as our Tea Taster was possessed of information relating to a Coffee that could be furnished at a moderate price, and give universal satisfaction, and at the same time afford the retailor a handsome profit—we have been compelled to supply those parties. This Coffee has become so popular with our customers and their sales have increased to such an extent that we have been compelled to marking and their sales have increased to such an extent that we have been compelled to markings additions to our machinery, which will enable us to supply a few more customers with it. MEDICINAL.

Tim peculiar tains or - which w eall Schorula lurks in the constitutions of multitudes of men. I either produces or is produced by an en-feebled, vitiated state of the blood, wherein that fluid becomes in competent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and

decay. The scrofulous contamination is va-riously caused by mercurial disease, low living, disordered digestion from unhealthy iriquity caused by mercurial disease, it iliving, disordered digestion from unfoalthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever he its origin, it is hereditary in the constitution, descendings from parents to children unto the third and fourth generation; "Indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, seconding to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and bocome ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspensia, and liver complaints; on the skin, cruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot bear health, with that "life of the feeb" feeble, foul, or corrupted blood, you canno have health; with that "life of the flesh" healthy, you cannot have scrofulous disease

Aver's Sarsaparilla is compounded from the most effectual anti-dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far supe-tior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following disease: King's Evil, or Glandular Swellings, Tumors, Evil, or Glandular Swellings, Junior, Eruptions, Pimples, Blotches and Seres, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White

tuberculous deposits in the lungs, White Bwellings, Debility, Dropsy, Neuralgia, Dyspenaia or Indigestion, Syphilis and Byphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in-ATER'S AMERICAN ALMANAC, which is furfished to the drugging for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from opersonal experience. Serontia depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now

which is adequate to its cure. This we now offer to the public under the name of Ayer's Sansaralilla, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been svailable to them. vailable to them.
