LINCOLN BLUFFED .- The story goes that Senator Wade called on President Lincoln near the clese of the session of Congress, on some important business-when the President says: "Sit down Wade-I want to tell you a story." Wade was indignant and replied, "D-n you, and your stories. too! IN V-A LIDS!! IRON IN THE BLOOD!

It is well known to the medical profession that Iron is the vital prisciple or life element of the blood. This is derived chiefly from the food we cat; but if the food is not properly diges. ed, or if, from any cause whatever, the necessary quantity of iron is not taken into the circulation, or becomes reduced, the whole system suffers. The bad blood will irritate the heart, will clog up the lungs, will stupify the brain, will obstruct the liver, and will send the disease producing elements to all parts; of the system, and every one will suffer in whatever organ may be predisposed to disease.
