Dr. Wishard :— I have been a constant sufferer with Dyspensia for the last eighteen years, during which time I cannot say that I ever enjoyed a perfectly well day. There were times when the symptoms were more aggravated than at others, and then it seemed it would be a great relief to die. I had at all times an unpleasant feeling in my head, but fatterly my sufferings so much increased that I became almost unfit for business of any kind; my mind was continually filled with gloomy thoughts and forebodings, and if I attempted to change their current by reading, at once a sensation of my coldness in connection with a dead weight, as it were, rested upon my brain; also, a feeling of sickness would occur at my stomach, and great pain to my eyes, accompained with which was the continual fear of losing my reason. I also experienced great lassitude, debility and nervousness, which made it difficulties walk by day or sleep by night. The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become nlicerous sores; in the stomach and bowels, derangements which produce indfgestion, dyspepsia, and liver complaints; on the skin, erupive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the wital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and these greatly shorten. than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The yest importance of these considerations has-led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public inder the name of Ayer's offer to the public under the name of Ayer's Sarsaparilla, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparillo, that promised much and did nothing; but they will neither be deceived nor disappointed in this.
