Dr. Wishart:—I have been a constant enfferer with Dyspepsia for the last eighteen years,
during which time I cannot say that I ever enjoyed a porfectly well day. There were times
when the symptoms were more aggravated than
at others, and then it seemed it would be, a great
relief, to die. I had at all times an displeasant
festing in my head, but latterly my sufferings so
much increased that I became almost unfit for
business of apy kind, my mind was continually
filled with gloomy thoughts and forsbodings,
and if I attempted to change their current by
reading, at once a separation of icy coldress in
connection with a dead weight, as it were, rested
upon my brain; also, a feeling of sicknoss
would occur at my stomach, and great pain to
iny eyes, accompained with which was the continual fear of losing my reason. I also experenced great lassitude, debility and nervonaness, which made it difficult to walk by day or
sloop by night. I became averse to society and
disposed only to sociusion, and having tried the
skill of a number of eminent physicians of various schools, finally came to the conclusion
that, for this discase at my prisont age (45
years) there was no oure in existence. But,
through the interference of Divine Providence,
to whom I devoutly offer my thanks, I at last
found a hovereign remody in your Dyspepsia to woom I devoutify offer my thanks, I at last found a hovereign remody in your Dyspepsia Pills and Tar Cordial, which seems to have of-foctually removed almost the last trace of my long fits of ailments and had feelings, and in their place health, pleasure and contentment

their place sealth, pleasure and contentment are my overy day companions.

DYSPEPSIA! DYSPEPSIA!

I, Moses Tobin, of Choltenham, Montgomer county, 'Pa., have suffered for more than offe year, overything Futudeath itself from that awful disease called, Dyspepsia. I amployed in that time five of the most eminent physicians in Philadelphia. They did all they could for me with medicines and cupping, but still I was ne better. I then went to the Pennsylvania University, in order to place myself intof the best medical taleats of the country, but their medicines failed to do me any good and oftentimes I wished for death to relieve me of my sufferings, but socing Dr. Wishart's advertisement in the Philadelphia Bulletin I obtermined to try once more, with little faith. I called on Dr. Wishart and told him if I could have died I would not have troubled him, and then related my suffrings to him. The Doctor raid that if he falled to cure me of Dyspepsia, it would be the fifth case in two years, so I put myself under his treatment, and although I had been for most if yomiting nearly orerything I ste, my stomach swellen with wind, and filled with pain beyond description, I bought a box of his Dyspepsia. Pills. I used them as directed, and ht'an days I could eat as hearty a meal as any person in the State of Pennsylvania, and in thirty days was a well man. I invite any person suffering as I was to call and see me, and I will relate my sufferings and the great cure I received. I would say to Dyspepsia, everywhere, that Dr. Wishart's, I believe, the only person on earth that can cure Dyspepsia with any degree of certainty.
