> origin it is hereditary in the constitution, visit the iniquities of the fathers upon their children." The diseases it originates take children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrottla produces tubercles, and finally Consumption; in the glangs, swellings which suppurate and become nleerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the abia construction and enterous affections. the skin respire and crianeous affections. These, all taving the same origin, require the same principy viz., purification and invigoration of the blood. Purify the blood, and prese dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot thre health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

the disorders it entails. That it is far superior to my other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordingry in their effect upon this shass of companiati, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Syellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Formale Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Aren's American Almanac, which is furnished to the drugglish for granitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taker from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to discase and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Avers Sarsafranilla, although it is composed of on all sections of the country, in order offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital liar virtues this remedy stimulates the vita functions, and thus expels the distempera hich lurk within the system or burst out

n any part of it. We know the public have been deceived by many compounds of Sarsaparilla, that will neither be deceived nor disappointed in this. Its virtues have been proven by abunlaut trial, and there remains no que its surpassing excellence for the cure of the afficing diseases it is intended to reach. Although under the same name, it is a very lifterent mediante from any other which has been before the people, and is far more effectual than any other which has ever been

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.
