IRON IN THE BLOOD!

It is well known to the medical profession that Iron is the vital principle or life blement of the blood. This is derived chiefly from the food we eat; but if the feed is not properly digened, or if, from any cause whatever, the necessary quantity of iron is not taken into the circulation, or becomes reduced, the whole system "suffers. The bad blood will irritate the heart, will clog up the lungs, will stupicy the brain, will obstruct the liver, and will send the disease producing elements to all parts of the system, and every one will suffer in whatever organ may be predisposed to disease.

MEDICINAL. THE peculiar mint or infection which we call SCHOTULA lurk in the consti malitudes of men. It produces or is produced by an en-peried, vitisted state for the blood, wherein that fluid becomes incompetent to sastain leaves the system to laif laif litto disorder and

decay. The scrofulous contamination is variously caused by mercarial disease, low living, disordered digestion from anhealthy food, impure sir, fifth and fifthy habits, life depressing vices, and, above all, by the veneral infection. Whatever be its origin, it is hereditary in the constitution, descanding "from parents to children unto the third and fourth generation;" indeed, it seems to be the roal of Him who says, "I will visit the injustices of the fathers upon their children." The diseases it originates the various names, according to the organs. various names, according to the organs it attacks. In the lungs, Scrofals produces tabercles, and finally Consumption; in the glands, swellings which supparate and become ulcerous sores; in the stomach and bowels, derangements which produce indi-gestion, dysposis, and liver complaints; on the skin, cruptive and cutancous affections. These, all having the same origin, require the stuated on the southest corner of the Diamond, or opposite the Gourt House, having been purchased by the undersigned, he announces to the former patrons of this "establishment and to the travelling public generally, that he intends refit-ting it thoroughly, and is prepared to render the most satisfactory accommodation to all who may favor him with their patronage. No pains will be spared on his part to add to the content of the blood, you cannot have healthy with that "life of the flesh" him with faind his. All who stop with Ayer's Sarsaparilla is compounded from the most effectual anti-dotes that medical science has discovered for

rior to any other remedy yet derised, is known by all who have given its trial. That it does combine virtues truly extraordinary the bit of sections of the section o Erysipelas, Rose or St. Anthony's Fire, Sait Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Aven's Avenue ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford refief. Those cases are purposely from all sections of the country, in refer. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefit from personal experience. Scronla depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Ayan's ENRATARILLA, although it is composed of ingredients, some of which exceed the dest of Nasaparills in alterative power. By its and you may protect yourself from the suffering, and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peeu-liar virtues this remedy stimulates the distingers liar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out

neny part of it.
We know the public have been deceived by many compounds of Sargaparillo, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abun-dant trial, and there remains no question of than train and mere remains no question of the surposing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very liferent medicine from any other which has been before the people, and is far more effectual than any other which has ever been

AYER'S CHERRY PECTORAL, The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.
