TO THE INVALID8!! IRON IN THE BLOOD!

It is well known to the medical professio It is well known to the medical protession that Iron is the vital principlesor life clement of the blood. This is derived chiefly from the flood we set; but if the food is not properly digested, or if, from any cause whatever, they necessary quantity of Iron is not taken into the circulation, or becomes reduced, the whole system suffers. The bad blood will irritate the beart, will stop up the Imper, will stunify the tem suiers. The bad blood will irritate the heart, will olog up the lungs, will stupif the brain, will obstruct the liver, and will send the disease producing elements to all parts of the system, and every one will suffer in whatever or-gan may be predisposed to disease.

The great value of IRON AS A MEDICINE Is well known and acknowledged by all medical men. The difficulty has been to obtain such a preparation of it as will enter the circulation and assimilate at once with the blood. This point, says Dr. Hayes, Massachusetts State Chemist, has been attained in the Peruvian Syrup, by combination in a way before unknown. THE PERUVIAN SYBUP
