ANOTHER. - We learn that an other company has been formed in this county for the purpose of developing the oil territory of he Karthaus and Salt Lick region, under Marketing. Three new stores are to be the title of the "Karthaus and Salt Lick Bellefonte during the coming fall, foil Company." The company has leases for about 8000 acres of Isud; embracing the celebrated Salt Lick property, with a river front of over six miles. This territory has surface indications of oil of the most promising character; and in view of the recent "strike" on the head waters of Clearfield Creek, and the fact that the sait wells, bered oning on Friday last, our talented young on the Salt Lick property some years since, were abandoned on account of the existing bitumen the company confidently expect, at an early day, to develop the oily treasure in quantities rivaling the great Venango ossin. He was the choice of the party two years ago, when he then sought a nomination, and had not the wishes of the people in the county been thwarted by scheming, politicians he would not be asking any favors at this time. It is an evidence of political unfairness for any man to be defented when he had re-votes more than either competitor in convention Yat such has been Mr. Barnhart's experience and he must attach the responsibility of this to Bellefonte politicians. The result the name, rank, company, and regiment of has been that such a course is working an injury to the party, when we should unite harmony and concord. We are glad to tion that every sensible man knows to be untrue.-That never be fore did the anniversary of our National Independence dawn upon the American people under such grand and glorious auspices, &c., &c. Sir, the American people, have never met upon our National Anniversary with such gloomy forebodings as they have had for the last four years, nor was the last an exception-(the war is over, true,) but in the language of the Old Quard, "who believe that the war has restored the Union ? Bring the shallow pated thing before us that we may look at him. Sir. do you call this a Union of free sovereign and coequal States, where one half is held like a vassal under the point of the bayonet by the other-tell us is this bloody, this Godless piece of despotic machinery a Union of sovereign States .- Is this accuraed system of Provost Marshals, of Military Governors, of Provisional Governors, of suspended habeas corpus, of military triuls, of arbitrary arrests, the Union that was estab. lished by our fathers ?" A Union is one of consent, the force system is despotic, beside all this, burdened by a debt that will grind us to the earth and no prospect of ever paying it: and thousands of our fellow beings maimed and crippled for life, thousands mourning the loss of fathers and brothers killed in this cruel war, brought on us by a restless, avaricious and fanatical party, that nothing seems to satisfy. The more blood they cause to flow, the more rapacious their appetites for blood becomes. Formerly the Baptists and Quakers were the objects of their hate and persecution, until they banished them from their borders. And etrange to say both Baptists and Quakers have joined in with them to persecute, desounce, reproach and abuse the people of the Southern States, because they hold negro slaves, a right given to them by the Constitution, and an institution which they claim to be ordained of God. And so relentless have the persecutions of these fanatics been, that they drove them (the South) into secession; then went up the cry wherever a fanatic was found for blood! blood! blood! extermination and confiscation! We have seen the results, we are feeling the effects by the taxes imposed upon us. The Union destroyed, continuence lost, unger, malico, reverge and barred, now rankle in the breast of this great Nation, where formerly love, fraternal affection, brotherly kindness and charity abounded, as proof of the anti-christian spirit of persecution manifested in the oration above alluded to.
