ANSWERS TO CORRESPONDENTS.

INDEFENDENT -- Yen had better do it yourself. FULTON. We have no knowledge of the man you allade to. JUSTICE.-We have no room to publish any

thing of the bind now. Bot .- Denmark has about 2,100,000 inhabitants

or about 95 to a square mile. Voter. -The "other side of the Mountain" polls several hundred more votes than "this side." X .- It is said that the walls of Jerushlem were fast rebuilt by Sult. n' Solyman, in 1543.

Assis. -- It a matter of the kind we ban give no advice. Love affairs can best be settled by those immedia ely interested.

STODERT.—The rule you want you'll find on page 259 of "Ollendorff's new method of learning to read, write and speak Spanish." Jenu.-He is as black in principle as any of the rest. They all sapport abolitionism, negro suffrage and all; if you wish to support these, vote for them.

HISTORI.—The meeting of the "Provincial Council," to which you refer, must have been the one held at New Castle, July 25. 1726. The commissions of which you speak, wors, issued at that time, by the "Gover nor." Patrick Gordon.

THINGS ABOUT TOWN AND COUNTY

Dris .- Business in town during the last few days has been very dull.

EARLY.-Some of the farmers in this see tion, are done seeding already.

STOPPED .- Operations at the Milesburg oil well, we have been told, have been stop- yet something has done it. What that ped for the present, in consequence of the lubjug giving way.

Oit. -- We are informed that oil has been struck at Salt Lick in this county, at the depth of seventy five feet, but not in a sufficient quantity to pay.

CAMP MEETING.—The members of the Evangelical church, have been holding a court of justice? It had better be closed Camp Meeting, about four miles above and save the people the expense it entails Centre Hall, during the past week.

A Daug.—Tomatoes seem to have become a drug in our market. We saw a man offering them for 75 cents per bushel on Wedneeday last, but could find no purchasers.

Going On. The bush meeting up Buffalo Run, which we noticed several weeks since, we understand is still going on. We hope i may continue until the whole neighborhood is converted.

GETTING WELL .- We understand that Ja cob Lebo, whom we noticed last week as having committed suicide, is likely to recover. The wound in his throat not being as dangerous as was first supposed.

Escargo.-The man arrested and confinned in jall in this place about ten days ago, for stealing a horse, broke jail and escaped, on Thursday night last. A reward of \$50 is offered for his rearrest.

Business before pleasure' as the man said when he kissed his wife before going out to kiss his neighbors. If you know your "business," when in town, you'll buy your oysters and ale of Myers at the west end of the bridge.

RIGHT.-Artemus Ward says when he hears the song, "come where my leve lies dreaming," he don't go. He don't think it would be right. Would you be right, reader, all the time ? Then go to Sussman's and buy your goods; you'll find them right at the right prices, and you'll conclude that you are right in the right place.

last for abusing and mal-treating his daughter, and threatening to kill her. What provecation he received, if any, we are not able to tell. However no amount of provocation would excuse the brutal treatment of his daughter. We think he was justly arrested. He was, however, released on bail. We believe his daughter has left the house under apprehension of her own safety.

APPLICATION having been made for a writ of Habeas Corpus in the case of Mrs. Nestlerode, now in our county jail, charged with the poisoning of her husband, a hearing of the case was had before Judge Linn, on Monday last. The evidence adduced, being of such a character as not, in the opinion of the court to warrant the release of the lady, the judge declined to grant the writ, and the prisoner was remanded back to jail.

THE OLD GUARD. We have received the September number of this excellent old fashioned democratic monthly. It is a work that should be in the hands of every man in the land, and will do more to stem the tide of fanaticism, than all the half-way publication in the country. Let our Democratic friends and all others who are desirous of reading the truth send for it. \$2.00 per year, address Van Evrie Horton & Co.

SMALL CHANGE.-Ex-Governor Pollock, Director of the United States Mint at Philadelphia, informs the public that small coins are now plenty, and can be had any quantities, without delay, in exchange) for greenbacks. The denominations are one, two and three cents. The coins will be sout to the purchasers, by axpress, at the expense of the United States. This will be the means of withdrawing from oirculation three cent fractional currency, and eventually also the five cent scrip.

Dogs. -There are something less than thousand geining, yammering, dirty, scraggy, half-starved dogs in this town, that have become about as great a nuisance to the place as the abolition party is to the country. Couldn't some enterprising chap manulacture them into soup, sausages, suspen-

NEEDS FIXING -- If the "Town Council," or those who have the repairing of our streets under their charge, will call at the intersection of Allegany and Bishop streets, they will see something that needs their immediate attention. A gutter that the rains of summer have washed out, large enough to form the bed of a very respectable river, decorates that portion of town, and reaches directly across Allegany street. No one can enter town in that direction but must cross over it, and no one that crosses it but is liable to break his wagon or injure his horses. It is only by repairing this place immediately that our borough will be saved the expenses, that some unlucky individual will claim as damages, for a broken buggy, a smashed-up wagon or a crippled horse.-It is a shame that any street in town, more especially the principal one, should be left in the condition that that one is, and has been for menths. During the whole summer we have looked for something to be been made. At a very little expense, a good substantial culbert could be built, which

would not only remedy the wrong, but also

add to the beauty of our town. Will it be

done?

-WHY WAS IT!-If we have been asked once, we suppose we have been asked twenty times, during the past week, why the individuals from the neighborhood of Pine Grove, were not sentenced, when found guilty at the late session of our Court. It s a question we suppose which Judge Link alone can fully answer, and one which we have no doubt he will be asked to answer by every citizen who has an interest in seeing the majesty of the law upheld. We cannot think that parsiality would screen the culprits; we would not believe that party bias could have aught to do in the case, neither dare we think that political prejudice retard, the hand of justice, and something is, is for those who can to answer. We know that these men were arraigned before the court, had a fair and impartial trial, were found guilty of "rlot and assault and battery," and yet they were sent home without a sentence. If those who are convicted of crimes, are not made to suffer the penalties of the law, what is the use of upon them.

A NICE PARTY .- About a week since, a 'lady" representing herself as an artist, stopped at one of our principal hotels, for the ostensible purpose of teaching the art of painting. She said she was a married woman, that her husband was a surgeon in the regular United States service, and that she had a family of children somewhere, which she did or could not account for. Along with her as a paramour, was a poor miserable specimen of humanity, known about Look Haven as a "pictur" man, who has a very respectable wife and family. They were, as the saying is, as "thick as bops," and as "Invin as doves." Our advice to the man is, to turn his attention to his own household, and not show himself in Bellefonte again on the same "biz," if he does not want the public to know who he is, and to Mrs. C. C. S. is, to get to some better employment, had mend her ways, if she would not have her husband informed of her conduct. Shame on such people.

NEW COAL YAND. We are gratified to know that our enterprising friend, Mr. Wm. Shortlidge, has established a coal yard in connection with his extensive lime kilns, and is at all times prepared to furnish any kind of anthracite coal that is in the market. What Mr. Shortlidge does, in a business point of view, he does right; and our citizens, both from town and country, can rely upon it, that if they give their orders to hun, they will be aftended to, promptly, and to their satisfaction. Purchasing the quantity he does, insures it to him, at much ower figures than it could be bought by persons who simply want a car load, and consequently he can sell at much lower rates. And besides, opening a regular coal yard, where it can be had at all times, delivered if requested, is a convenience which the public will fully appreciate and patronize in no stimed manner.

A CHINESE BOY, who was learning English, coming across the passage in his Testament, "We have piped unto you and ye have not danced," rendered it thus: We have toot, toot to you, what's the matter you no jump." You'll jump for joy at the heaps of goods and the low rates at which they can be had at Hoffer & Keller's. We are glad to see that this new firm is determined not to be outdone by any establishment in town, either for quality, quantity or cheapness of goods of every description. Give them a call and you will not go

away disappointed. ELECTION OF TRUSTERS.—A meeting of the delegates for the election of Trustees for the Agricultural College, met at the College building on Wednesday last, and elected Augustus O. Heister, of Dauphin, Samuel Chadwick, of Allegany, and B. Morris Ellis, of Lycoming county, to serve during the coming year. The proceedings, together with the resolutions and reports of Committees, were handed in for sublication but owing to their length and the erowded state of our columns, we are compelled to leave them lie over until next week.

A. Boyn Hurchtson Esquire, has become connected with the Central Press, as editor, until after the campaign. We hope he may find the chair editorial well cushioned, and be the recipient of some of the good things of this life. Boyd "pitches" in heavy in the last issue of the "Press." Mr. Kurts, the proprietor, is about to travel the county, canvassing for money and subscribers-an excuse for not meddling in the abolition puddle this fall, owing to his disappointment at being compelled to make way for Capt. Checkeman. Alas, poor George!

DON'T NEED A CANDLE. A leacher of vocal music asked an old lady if her grand-son had any ear for music, "Wa'll," said der buttons, book coverings, &c. A number of their find, if reports are correct, have already gone in this way, and nothing was wasted of them but their dying greans.

Let the rest follow.

WHAT THE OLD SAW-FISH SAW.

There was an old naw fish down in the ses, And he was as queer as a fish could be.

A fish of rather remarkable strength, Some eighteen or tweenty feet in length. At the end of his nose, and his upper jaw,

He lived far down in the briny deep, Where the lobsters play, and the dolphins leap. It came to pass on a recent day, That the Telegraph Cable was dropped that way. "Ho! Ho!" says ho, with afishy laugh,

"It is certainly clear to mo, But, whether it's evil, or whether it's good it shan't pass through this neighborhood." "Evil or good; I know what I'll do;

So he sawed it through with his terrible saw, Which he carried about on his upper jaw Just about that time of day, The signals ceased at Valencia Bay!

And what was the reason no one knew, Save the saw-fish who sawed the cable through For further information, call

LINDSEYS BLOOD SEARCHER

LINDSEY'S IMPROV'D BLOOD SEAECHER

IN LARGE BOTTLES, Is particularly recommended for use during the

Spring and Summer, when the blood is thick and circulation retarded by unhealthy secretions. This perfectly soft though powerful Purifier, cleanses and renews every portion of the system. It is the only gen-uine and original Blood-Searcher, which for years has performed the most wonderful, yet permanent cures, in confirmed cases of scripfuls, old seres, tetter, tumors, beils, and all kinds of scrofulous gruptions.

Eroidious emptions.

It is also a reliable remedy for sait rheum, ing-worm, scald head, and kindred diseases. As a general tonic its effects are most benig-nant, and cannot fail to benefit where used ac-

nant, and cannot fail to benefit where used so-cording to directions.

We hake no claim to having discovered a "Panacoa" or "Universal Remedy" for all the ailments to which flesh is heir; but we do claim what countless facts have fairly and faily estab-lished, that in the

BLOOD SEARCHER the afflicted will find a "standard medicine," one upon which they can rely as a sure specific for all diseases for which it is recommended.
