THE BLACK ISSUE. Read! White mon Read!

Time and again have we asserted that the great issue to be decided at the polls of the second Tuesday of October next, is, shall negroes have the right to vote, and thus be placed upon an equality with the white race? and along with the assertion charged that the abolition party, as a party, favors this infamous idea, Although it has not, or cannot be denied by any of their politicians or papers, yet there are many honest men is the ranks of that party, who are loth to believe that such a degrading proposition could be entertained for a moment by any political organizationloth to believe that the party to which they cling could become the advocate of such a henious doctrine. In proof of what we have heretofore charged, and that they may see the position their party has taken, we point to the following extracts from the r loading politicians, papers, and the proceedings of their State and county conventions.

From a pamphlet entitled, "Universal Suffrage, and Complete Equality in Citizenship," that was sent into this county by hundreds as an abolition electioneering document, but was suppressed by the Chairman of their county Committee, for fear it would open the eyes of the masses of the voters of that party to its true intentions, and driventona is support those who are opposed to negro State platform as advocating the right equality, we take the following. They are the words of Henry Ward Beecher, and the sentiments of the abolition party, that is now using them:

"Give to the blacks that right which belongs

,"I Advocate, then, the giving to all men black and white, the right of suffrage, first, because it belongs to them; second, because if is safe and beneficial a and, third, because only in this way can we have peace. Then for their heroic military services, I think the blacks have deserved the right of suffrage. And here let me tell you, that for picket duty, for guard duty, for the march, and for assault, the colored soldiers are surpassed by noise in the world, and equalled by few. They are more faithful than while soldiers on guard duty. The bread of the army under the buyonet of the black mean is safer than under the buyonet of the white soldiers the buyonet of the white mean. And than under the buyonet of the white man. And it is not long to be disguised or disputed that these men make as good soldiers as soldiers need be. It is said to. "If he may vote, then he may be voted for, and may hold office." Why not if anybody wants to vote for him, and wants to put him in office? But, it is said, wif you take such stops as those, and give citi-zenship to the blacks, then all definction will zenship to the bleads, then all distinction will be abolished, and miscegnation will be the result." All that I have to say is, if it sume be done, let it be done lawfully, by marriage, and not by adultery. That is all I nessist upoh. If any mas will have a black nomen for a companion, there ought not to be any law to prevent him, but he should marry her. I do not undertake to say that she mingling of these races will deteriorate one or the other. I am in favor of two laws: first, that, if a man doce not wish to merry a black women, nothing shall compel him to, and, second, that, if a man wants to marry a black women, nothing shall compel him."

Mr. Grow does not stand alone in the advocacy of soch infamous doctrise-Simon Cameron, ex-chairman of the chairman, Thadeus Stevens, John Hickman, Morton McMichael, John Corode, Edward M. They are circulating a petition, a copy of which we have now in our possession. asking that the following be adopted as au amendment to the United States

Constitution.

To State shall make any distinction in civil rights and privileges among the naturalized citizens of the United States resuling rethin its limits, or among persons lovens on its set of parents personnels resident there, on account of race, ruler, or descent.

From a speech of the Hon. W. P. Kelley, abolition member of Congress from Philadelphia, delivered at Boston, we take the following:

"Give perice that the black troops will accept a other letus than that they, their wives and to other from than that they, their wives and children, shall be on an equality with the whites, and will not lay down their arms and let the country violate every doctrine of the Declaration of Independence, and every principle that underlies American institutions." "There shall be no political peace until it gan; be made on such terms as will place the negro on an equal with the schice man."

Some may say that these are but the opinions and acts of individuals, but it nust be remembered that individuals. make a party, and the opinions of these men are the controling ideas of the party to which they belong.

But we will not ask any to take the expressions of men for the intentions of. parties. The record is full enough without that In lows, that party though its State Convention, declares "That with proper safeguards to the purity of its ballot box, the elective franchise should be the ballot box, the elective franchise snound on based upon loyalty to the Constitution and the Union, recognizing and affirming the EQUALI-Union, recognizing and affirming the EQUALI-TY OF ALL MEN before the law, therefore we are in favor of amending the Constitution of our State by STRIKING OUT THE WORD WHITE in the article on suffrage."

In Minnesota, a State that has ever given a republican majority, and is enough imbued with negro, to swallow anything, it

Resolved. That it is the sense of this Concention that the word "white" be struck from the State Constitution. That the elective franchise can be more safely entrusted to the intelligent freeding than to those who have spent their lives thus far to overthrow this Republican Government; that we sak those whom we have but ripment; that we ask those whom we have pu-a nomination, to support these resolutions.

In Massachusetts, the Gibralter of abolitionism, it says, in its State platform, that,

"Although we have no new theories in "Although we have no new theories in re-lation to negro suffrage, we oppose allowing the elective franchise to rebel soldiers and traitor-ous politicians, while loyal black men who have hyrne agas and shed their blood in the nation's defense are excluded fland declares that Con-gress should maintain the public faith toward the free-timen, while it provides for the peace and ascentify of the country."

In Rhode Island, a State that the friends of Simon Cameron, control, it Are you willing to house and herd, to has resolved: "

"That while we revere and honor the memor "That while we revere and nonor the memory of the white soldier who has fallen in detence of his country, we must not forget the black who remained highful to its cause, and justice demands that the eigeties franchise be conferred upon how, the same as upon loyal whites."

Such is the position of that party outside of Pennsylvania. What is i negro | State platform as advocating the right of negro suffrage, neither can we find within it one word in opposition to it. I pon that all important subject it is silent as the grave. Not so however, with its county conventions. In Crawford county, at their last con vention, held of the 27th day of June 1865, they resolved that:

"Loyalty to the government should be the my test of the right of suffrago-those wh have fought to preserve the Union on the feld of battle, whether white or black, are benefit worthy and fit to protect it through the fallothox—it is unworthy the age in which we live to deprive men of voting who sustain the government by their treasure and blood. ernment by their treasure and blood.

These are the words of Wendell Philips, taken from a speech of his at Troman temple. April 23, 1865, which we would have distinctly remembered, is used by the abolition party as a company document.

But to come mearer home, to come right to the organ of the abolition party of Centre county—the Central Press, the mouth peice of Gen. Beaver, and State committee, John Cessna, present the rest of their ticket, we find in its issue of June 23d, such sentiments as

these:
The fact that we celebrate the fourth of July rather than the annersary of the induction of our present Government, is proof that these immortal principal safett see are created equally are greater in our bettimation than the means we have used to cetablish them. Do ye a want anything plainer, to tell you that that party, even in our county, is willing to degrade you to a level with the negro? That it is in favor of giving all men, no matter what their color, race, or distinction, who live under our government an equal roice in determining who shall administer that government?
