Conquered people, whose property has been taken as spoils of war; who have been disfranchised and held as political outlaws ; bver whom negroes are set to rule, are not likely to soon forget their traditions, swallow those wrongs and form a union of hearts and hauds. History never knew such a case.

"At the South there are nearly six millions of people, more than one-third of the inhabitants, always true, always faithful to the Government, fighting its buttles and almost worshipping its flag, as loyal as they are black; but I am sorry to say the ad-mixture of the white blood of their former hasters prevents no from snying, yin every hastance," as black as they are bayal *I* inters of dates these vote and then I have no tears of a datoyal South.
