Workingmen Take Heed!

More than any other is the working class ace, the great toiling, sweating, tax-paying masses, interested in the result of the coming election. Their interests which are represented by their hard flate and sumburn. ed brows, are thrown in the scales against the wealth and exempted bonds of the would. be American aristocrat, and on Tuesday usat, the decision will be made in favor of one or the other. Capital or labor must be the controlling power of the country. The people or monopolies must dictate the laws that are to govern us. Which shall it be? Are our laboring mon willing to become the mere tools by which monied monopolies and bond holders shall grow wealthy, without hearing their share of government expenses? Are they willing to toil and be taxed to pay enormous prices for every necessary of life. simply to permit a privileged class to live in esse and luxury? As they answer, at the polls, so will be the decision. The man of wealth has the means at hand to meet and butle against the tide of evil which bad logdation, and bad management, to often en-I sted in his favor at Harrisburg may cause to fall upon him; but the poor man, the man who carns his bread by the sweat of his brow, the working man, has nothing but his brawny hands, his staunch muscle, and his. unaided will to assist him in weathering

The past history of the country is emphat-

ic on the point, that in the division of men into parties, there has always been a party which labored for the advancement of the interests of the few, and which in the passage of laws considered only the dogma-"inte care of the rich, and the rich will take has always havored the granting of corpor-ate privileges, which has never seriously considered the rights of the many while give ing the few possessed of means all the dvantages in business and trade, and which is ever ready at the command of combined capital to place restrictions on the onward merch of labor. It is this party which passail the odious "ten day" law of last winter which procured the dodging of the signing or vetoing of the bill by Gov. Curtin, and which in all times past, when labor attempted to elevate itself and seoure a just reward, sided with capital and entered heart and stal into measure to put labor down. It is the same party, which under dread of the consequences for past misdeeds-for enor mous taxes growing out of a plundered treasury, and which, in the way of increasel rents and increased prices for everything to comfort and sustain life, will be wrung from the pittance recieved from your hard toil-and for all the other evils apparent as the face of day in the economy of the Govcramont, is now sudsavoring to disgrace you by elevating the negro to an equality with you in the endial and political scale .-Lits the sime party which is always taunting the Irishman with ignorance, the Dutchmm with stupidity, and which, but a few years ago joined in an effort to prevent all who fiel to this country from the rod of the foreign oppressor, or for the purpose of enjoying our blessed privileges of liberty and equality, from a full and free enjoyment of those privileges. It is the same party which in its hatred of religious liberty, but a few years ago burned churches; and in the streets of the city of Brotherly Love murdered men because of their adherence to the religion of their fathers. But why multiply charges. The record of the Republican party, both under its present name and the many aliases under which it has attempted to steal into power, is plainly written on the our privileges as men, and our prosperity as a nation. It has never assayed to manago the government but what it brought trouble and wee upon the country, and its electees never approached a success. save when they eschewed its nefarious principles and damnable dogmas, and teek for their compass the pure and tried principles

Thorodias always; too, been another party-the great Democratic party-which, conservative in its action, but determined in its steadfastness to principle, has never look-ed either to the right or the left for favor, but always marched steadily onward toward the goal of its ambition, the advancement of the best interests of the country. It has suffered defeat for faithfulness, when political blindness for the time ruled the masses. but it never foreswore its principles, nor leut itself to the machinations of capital to cripple and otherwise injure those who were dependent upon it. In good time its restoration to power always brought gladnesate the land; and prosperity never failed to flow to the masses from the influence of its benign exercise of power. It meyer interfered with free speech or a free press; it never perse. cuted men for opinions sake ; it never sought te certail the privileges of the masses; itnever passed laws which gave power to bold had men to thrust decrepid old men and women, and tender children and babes, nor sturdy men in pursuit of their honest right, out into storm, and rain, and show, merely because those upon whom these were dependent for support, elected to be men and not serfs; it never attempted to ostra cise white men because the accidents of life made their birth place in a foreign land; it never attempted to disgrace the white man's government, by elevating the negro above the sphere which God evidently intended him to occupy; it never attempted to create a privileged class by compelling the poor man to submit to heavy taxes that the rich man might be protected in the enjoyment of his thousands untaxed. . . There is not, to-day, a single law upon

of Democracy.

the Statute Books which the Democratic party passed, against which the breath of working man's represch can in justice be raised. But all its acts, from the commencement of the Goverment, have been passed solely with a view to the bettering of the from the apacity of overgrown wealth. It on Colorado, the Abolitious favor it, the vor of placing negroes upon a social and politic is in short, in the strictest sense of the term, Democrats oppose it :

the party of and for the people. It is the ta Beaver a Believer in Negro Equality? party, which every true friend of his own and the country's best interests supports; and that laboring man who, at this juncture of our country's condition, fails to support its candidates, and thus contributes to its defeat, writes'in letters of dreary import indeed, the epitaph which will yet be placed over the grave of his fondest hopes.

Workingmen of Centre, the condition the country and your interests as citizens calls loudly upon you to do your duty .four only hope is in the restoration of Democratic principles as the policy of the Government. Can it bo that you will fail thom . now!

It is a fact generally known, that the

the election of Gen. Jan. Beaver, than any

Why they would Elect Beaver.

other man on their ticket. Their interest has not been half so great to secure strength even for candidates for State offices as for for him. And why is it? A few words will explain. It has always been a cardinal princi pal with the republican or abolition party, that States were mere dependencies upon the general Government; that State Constitutions could be blotted out by amendments to the United States Constitution, and State laws abrogated or annulled by acts of Congress and presidential proclamations. In faci they have held that the General Govornment was supreme in every respect, and | ging your votes, for casting this slur upon National Government, just as counties are divisions of States. Holding this doctrine, it is only necessary to amend the Constitu. ion of the United States, to carry into affect the idea which they now are favoring -that of negro voting. To do this twothirds of both houses of Congress must propose amendments, which, when ratified the Bagislatures of three fourths of the States, becomes part of the Constitution. which operates on all States alike. Concare of the poor." It is this party, which gress, every one knows will propose an amendment enfranchising all men without regard race, to colorer condition, at the next session, and the State Legislatures if they have a majority of abolitionists they will ratify the same, and thus the matter will be accomplished-negroes will be made voters -and our white citizens will be prevented any further expression on the subject .-This is the principal "reason that they are so anxious to elect their candidate for Assembly. It is to aid in ratifying an amendment to the United States Constitution, giving

negroes the right to vote. To make good our assertion we need but copy the following petition, that is now in our possession, favoring such an amendment to the Constitution of the United States, and which has received the signature of nearly every leading republican or Abolition politician in the State. Here

it is:

No State shall make any distinction in civilrights and privileges umong the naturalized cutsens of the United States residing outhin its
limits, or among persons born on its soil of
parente permanently resident there, on account
of rate, color, or descent.

Such are the facts voters of Centre County, and we now ask you in all sincerity if you are in favor of sending a man to your State Legislature, who is pledged to vote for such an infamous measure. If you give the abolitionists a majority in our State Legislature, just as sure as the sun rises, the right of suffrage will be conferred upon the negro. Defeat them in the Legislature and Congress will never propose such an amendment. It ing the enormous taxes now imposed upon is a chome they have of taking the question you, to keep up a standing army, when out of your hands-of hiding the issue and forcing negro equality upon you, against your consent, Will you be warned? The question is plain and positive, Beaver and negro equality Kurtz and the supremacy of the white man.

They Dare not Deny It!!

REMEMBER, that since the opening of Ace of all the acts which tended to curtail the Campaign, the sholition party has been his neighbor is required to pay State, charged, every week with boing in favor of County. School, Road, and City tax upon by any of their ergans or officers!

Jas. A Beaver and the abolition party of burdens upon the laboring classes? It is Centremounty, in every issue of our paper, time that this state of things should be since the nominations, with being in favor of put an end to, and the burthens of taxation giving the negro a vote and placing him upon a social and political equality with the white race, and they have never denied REMEMBER, that we have charged Just

A. Beaver and the abolition party of Centre county, with being in favor of exempting the wealth of the rich man, (his government boulds) from taxation, and of taxing the farmer and laborer so much the heavier to make un for it, and it has not been denied. REMEMBER, that we have charged them with being in favor of taxing the laboring whites of the North to feed and clothe the lazy loading blacks of the South, and they

ave nèver sienied it. RECOLLECT, that we have charged them with being in favor of these infamous ideas, time and again that they are no new charges preferred, just on the verge of the election, when there was no chance for a denial-but have been made EVERY WEER SINGE THE OPENING OF THE CAMPAIGN in order to give them an opportunity for denial, if they were not in faor of them,, and they have FALLED TO DO

If they are not in favor of giving negroes the right to vote; if they are nor in favor of exempting the bonds of the rich man from taxation; if they are not in favor of taxing the laboring white man to keep the negroes of the South, WHY HAVE THEY NOT SAID SO ?

- If you want to elect men, who enderse all the robbers, public plunders, perjured officials, and unconstitutional acts of the past four years; who know nothing about the offices they aspire too, and are neither competent nor capable of filling them, and who look upon you as no better than so many white-washed niggers, vote the abolition ticket!

The voters of Colorado Territory, at their late election. say "negroes shall not vote there." What say the white men of Pennsylvania? What say the citizens of poor man's condition, and to pretect him Centre county? It is an issue here just as for the abolition ticket, is that much in fa-

Time and again since the opening of the enmpaign, have we charged General Beaver. the abolition candidate for Assembly, with being an abolitionist of the blackest school -one that looks upon white men as no better than negroes. Although it has never been denied, it may not be amiss in us to furnish proof of what we have asserted, in order that men who have a desire to vote right, may see who and what he is. From * speech delivered by him at the Soldiers Banquet, in this place, on the 4th of July, last, and published in the Central I'ress, of July 14th, we clip the following:

uly 14th, we cap sur somering.

"And if, as we believe, the grand ethnologic
idea announced by Paul from Mars' Hill eigh al idea announced by Faul from Mars' Hill eighthen centuries ago, that "God hath made of one blood all nations of mon for to dwell on all the face of the earth," the same immerial truth which has ring once more in our ear's to-day, "that ALL men are created equal," I say if this idea—and oh, my friends, ITS MORE THAN AN IDEA—if THIS GREAT TRUTH THIS ever living principle yans the under-lying stratum, the motive power, the moving principle of the struggle which has resulted so gloriously for us as a nation, then the religion of success was the religion of the ago, and he best fulliled his mission, best performed his duty to his country, to the age, and to God, who lived by it he hved and who died for it it he died."

That ALL men, Negroes, Tadians, Whites

That ALL men, Negroes, Indians, Whites and all, were created canal is not only Beaver's opinion, but he declares it to be a GRAND TRUTH. What think you of this white men of the country? Do you feel under obligations to this man who is begthat States were move divisious of a grand you! for telling you to your face that it is a grand truth, thát you are no better than ne gross? Can you vote for a man that looks upon you as so many bleached Africans, and will do all in his power, if elected, to degrade you to their level? Will you endorse, by giving your support to him, such infamous ideas? Will gots insult the memory of the mother that brought you forth, by saying oith unus ha'for that ske agos to in no wise superior to a Congo nigger? Remember if you vote for Beaver, you endorse his doctrine. Remember, to you vote for him, you say with him, it is a grand truth that you are no better than a negro ?

Abolition "Peace."

The "peace" that the abolitionists have brought the country, is secured for the present in New England, New York, and New Jersey, by Gon. Hooker and seren other generals at a public coxpense of one million seven hundred and fifty thousand doljars per year. " In "West" Virginia, Maryland, Deleware and Pennsylvania, by Gen Hancock and seven other generals at one million six hundred and ten thousand dollars per year. In Ohio, Indiania, Illinois and Michigan, by Gon. Ord and six other generals, at one million 4 wo hundred thousand dollars per year. In five Western States and three Teritories, by Gen. Pope and eleben other generals, at two million three hundred thousand dollars per year, and in the Southern and Pacific States, by a tremendous stanite ding army, which costs almost five times as much to keep up, as the entire expenses of the Government were under a Democratic administration.

This is the kind of a "peace" that abolitionism has given you tax-payers of Centre County. You pay millions upon millions of dollars per year to maintain it, whou under a Democratic administration you payed comparatively nothing. Will you vote longer to support a party that thus rebe you? Do you want to continue paythere is no necessity for it! If not vote the Democratic ticket.

Tell us Will You !

Will some advocate of abolitionism and bond aristocracy tell us, why the man of wealth owning \$50,000 of Government bonds should be exempted from all taxtion, while the mechanic who holds a \$500 bend from Negro suffrage, and it has never been dented his small investment? Is it right or fair that the wealth of the country should RENENBER, that we have charged escape faxation, and thus impose double equalized. Our doctrine is that every man in the community should be taxed according to his wealth, whether it be in Governmont bonds, real estate, orany other species of property. What say you flaboring taxpayers? Are we right or wrong? If right vote with as on Tuesday next, to tax the bonds of the rich in the same ratio that your property is taxed. Vofe the Democratic ticket and all will be right.

The Difference.

Col. Davis the Democratic nominee went into the war, and fought as he belived, for a restoration of the Union. " He was severely wounded, losing his right hand and otherwise being disabled whon in command of his regiment, Hartranst his opponent went into the war to make money, he betrayed his party for the sake of promotion, and skulked every engagement that he could possibly get out of. The only act he accomplished of any importance, was the hanging of Mrs. Surratt. Which of these men will the honest voters of Centre County Support!

Remember!

Voters will do well to remember that maj Cheesman, was only nominated for Treasurer because it was deemed expedient. Not because he was fit for the position; not because he was capable of filling it; not pecause he was a responsible person, but simply because it was expected that sympathy, would insure him more friends, than the dirty doctrines which he represents.

WOTE FOR JOSHUA POTER for saidner. In these times of high and burthensome taxation it is very important to have in the commissioners office, men who will carefully guard the treasure of the county from unnecessary expenditure. Mr Poter is just the man for the place.

VOTERS, Remember, when you go to the polls on Tuesday next, that every vote cast cal equality with yourselves!

One Word More!

Free white men of Centre county, as this is the last opportunity we will have to talk to you before the election, allow us to advise you to be certain that you are voting conscientiously before you go to the pells to deposit your ballots. Great issue hang upon the result in Pennsylvania this fall .-Should the Abelitionists succeed, the next question you will have pressed upon you by them will be an amendment to the Constitution allewing negroes all the social and thin shoes make one cold, two colds, one attack political rights and privileges now enjoyed of bronchitis; two attacks of bronchitisit, one political rights and privileges now enjoyed by yourselves. They will press it upon too, with more confidence from the fact of having triumphed this fall, and you will find it much harder to kill that proposition then than now. We implore you, then, by every honorable and upright principle which God has implanted in the human bosom, to be true to yourselves and to the white race to which yuo belong. Do not suffer yourselves to be led into anything even like seeming assent to the monstrous doctrines of negro suffrage or negro equality. Be true to your children-your and daughters. Keep the black man in his place, which is one of subserviency. Do Do not encourage him to aspire to the same level with yourself, politically, or to aspire to the hand of your child in marriage .-Crush all such disgusting and wicked docrines at once, and do it in such a manne and with such determination as will leave to hope of any future recusitation of the subject. In your hands, voters of Pennrylvania and of Centre county, are these rast issues. See that you decide them no against yourselves.

His Financial Abilities. The principal reason, why Major Cheese an should be elected Treasurer, if we are to judge by what the Abelitionists way, is coause he is wounded and unable to do nanual labor. There are scores of other wounded soldiers in the country, just as brave and just as deserving as he, who did not recieve one tenth the pay he did, and whose pensions not near so large, who have no expectation or desire of being kept at public expense. If Major Cheeseman's financial abilities are so poor that he could save nothing at one hundred and fifty dollars ver month, (the wages he drew for almost three years in the army,) and cannot now make a living when drawing regularly a pension of twenty dollars per month, outside of his time and any other business he may engage in, what kind of a man would be se to take charge of the financial affairs of the county? We leave it to the tax-pavers to answer, whether such an individual should be placed in charge of the thousands of dollars of taxes they pay into the the County Treasury yearly
