Baixo us a gobbler, somebody, for Christ

-Next Thursday will be Thanksgiving

Court has been very well attended this week. The Nestlerode case excites a good deal of interest.

STREETERS has received another lot of new goods at reduced prices. They are going off like hot cakes. Call and see him.

The Centre county jail is a profitable institution. Of the criminals recently confined there awaiting trial at this term of court, all but one or two have escaped. It should either be made secure or a new one erected.

THE NEW BARREY Of Messrs. Grafius & Dickson, on Allegany street, in the old Grafius residence, is now in full blast, and they are manufacturing delicious bread, rusks, &c., They will be prepared to supply any demand as soon as they get their store room in order. Give them a call.

SAME OF SHEEP .- Two hundred and four head of sheep will be sold at public sale at Caleb Way's, near Stormstown, in Halfmoon valley, on Monday next at 11 o'clock. They will be sold in lots of ten. The entire stock consists of 64 lambs, 65 welhers, 72 ewes and two bucks. Thomas J. Moore is the seller. Those wanting to buy sheep had better attend.

NEW PICTURE EXTABLISHMENT. -- By reference to our advertising columns it will be seen that Mr. C. A. Glenn has purchased the Photograph car of Mr. Toylor, where he is now prepared to take pictures in the best style of the art. Mr. Glenn's pictures Fair at Williamsport, which is a high recommendation of his skill as an artist. Call

GREAT YIELD OF POTATORS. George Durst, formerly of this county, but now a resident of Molis township, Carroll county, Missouri, raised off ton rolls of ground or about one sixteenth of an acre, twenty-five bushels of potatoes, which would be equal to tion the Messrs. Loeb may have for selling four hundred bushels per acre. The potatoes were dug from the ground on the 18th and 19th of October last. So says Peter Durst, who helped to dig the same. This is the largest yield of potatoes we have ever heard of. Can any of our Centre quanty furmers beat it?

In our issue of last week we stated the combined weight of Mr. and Mrs. Leathers, of Mechanicsville, in this County, to be over 600 pounds, and several of our friends expressed incredulity. The fact is, as we have since been informed, by one well acquainted with the parties, their weight is over seven hundred. Instead of 262 pounds, as we stated last week, Mr. Leathers weighs over 270 pounds, and his wife 442. This is even more wonderful than before. Such corpulency has never been heard of in this part of the country, at least in our recollection.

Tax editor of the Mifflintown True Democrat having finished "skinning" John J. l'atterson, of that place, has turned his attention to another customer, and hauls him sucked in knavery with their first breath. "Levi Myers, the overgrown heast of a Postmaster at Thomsontown, was in town last Friday, scolding us, calling the citizens of his own town lars and anything but honest men confading the incorrance." over the coals in the following manner : of his own town hars and anything an in the butcher business, while exact the bonest men, confessing his ignorance, and making an ass of himself generally. If he had sufficient soundness in his carcass to had sufficient soundness in his carcass to hold it together, we would give him a demiserly, selfish vagabonds, as rapacious a miserly, selfish vagabonds, as rapacious a with affections of the throat and lungs. Brondling affection affliction, and long are left to the constant of the consta

What's the price of cow-hides in your town,

ADMITIED TO THE BAR .-- On Tuesday last our young and talented friend, John P. Mitchell, esq., was admitted to the bar at this place, having passed a highly creditable examination before a committee camposed of Messers McManus, Blanchard and Furst. The committee speak in the highest terms of Mr. Mitchell's shilities and prophesy for him a brilliant future as a lawyer Mr. Mitchell has labored hard as a student, and his early admission as a member of ... the bar is a fitting reward for his energy and perseverance.

We hope our poet friend will now rest on his laurels for a brief period, and, by way of recreation, give the public some more of those delightful effusions which, in days not | in such a dirty puddle as the characters of long since gone by, made his muse a welcome guest in every household. It will do him good to expand his soul in poetry once more, and will clear his brain of the dust of the musty law, books he has been perusing for so long. Here's our sor. John and may your future be as glorious as your present is bright and promising.

We take great pleasure in chronicling the success of another of our personal friends, with whom we were intimately associated in the haloyon hours of our boyhood's days, Mr. Norman M. Hoover. Mr. Hoover was admitted to the bar on the same day with Mr. Mitchell, having, like him, passed an examination that was very cred-Hay, who speak of him in a very flattering manner. Mr. Hoover and Mr. Mitchell were students in the same office—that of Orvis & Alexander—and the fact that they or the same day and on the same day and or th with such honorable commondations from their committees, is creditable to those gentlemen as well as to the young men themselves. Like Mr. Mitchell, Mr. Hoover was a hard student, and has won his way into his present place in the profession by the force of his mesent place in the profession by the force of his mesent place in the profession by the force of his mesent place in the profession by the force of his mesent place in the profession by the coll country. force of his own indomitable energy. Re \_\_\_\_\_We are informed by Mr. Allison that We are informed by Mar. Allowed by Mar. Allowe Now, Norman, hang out your shingle.

THE BELLEFORTS MEAT MARKET,-IL cems that our comments in the Watchman of two weeks ago, in regard to the meat market in Bellefonte, and our animadversions upon the conduct of the Messrs. Loeb, as meat sellers, gave immense offense to those individuals. We hardly expected that they would feel pleased with the article, but had no idea that it would cut so deeply as to throw them into such a perfect hurricane of passion as is exhibited in the billingsgate attack which they make upon us in last week's issue of the Central, Press. Judging by the language they make use of, one might very naturally infer that these men had, at one period of their lives, been inmates of a penitentiary or a mad-house. Probably, if the truth were known, it might be even worse. Everybody can see that "damned rascal" is printed in their faces as plainly as the eyes in a toad's head, and from what we have heard, moral leprousy covers their souls as thickly as apots on a leopard's hide.

These men say the reason why we made such an unfortunate (for them) expose of at the same time induce all to cultivate a their conduct, as butchers, was because they greater interest in the intellectual welfare refused to trust us to meat. This assertion of the young, is simply untrue; and if the public desire to know the real state of the case they can inform themselves by reading our card, which-by the courtesy of its editors-w this week publish in the Central Press, in order that the contradiction of the libel mago forth to the public through the same columns in which it was propagated.

If our readers will carefully glance over the article published by the Press, to which the signature of the Messrs. Loeb is ap pended, and for the insertion of which the paid eight cents a line, they will see that not one of the charges we made against them is denied. On the contrary, they are all set aside with the trembling haste of one who is anxious to get rid of an unpleasant subject by ignoring it altegether. To cover their confusion they fire at us a battery of vile epithets, which, for low vulgarity, are exactly on a par with the despicable characters of Mose and Ferdinand. They evad the charges by saving that if they were to deny them we would only make others, and were awarded the premium at the State they would never get done making denials, and so forth. Well, this is probably true. We have

other charges to make against them-charges, too, which they would probably not like to see in print. There are those in this community who have been witnesses of some of their dirty practices, and who are willing to swear to facts which would be rather damaging to whatever little reputawholesome meat. There are sad stories affeat in this community in regard to the predilection which certain butchers have for making sausages out of anything and everything else than sausage meat; of their penchant for mixing a certain vulgar article (which shall be nameless here) with their liver-wort; of their propensity to chea children who are sent to their shop for meat, and of their immense love for cattle that have been killed by locomotives. We say these stories are rife in this community, and it is possible we be may called upon to elaborate them. This we do not wish to do. We may, however, be forced to this alternative. unless certain parties mend their manners.

ter. And for the hard names which these

men call us we don't care a fig. As the

nigger said when the jackass kicked him, we "consider the source," knowing that the oaths of these fellows would hardly be taken in a court of justice. One thing, how ever is certain: these Loebs have "skinned" this community about long enough. They and have practiced it ever since they were That's what we call pretty plain talk live in a decent community and utterly unworthy of the confidence or utronage of unworthy of the confidence of patronnes of the public. When, Mr. Brown accepts the two hundred dollars which they offered him to quit the business, in order that they might monopolize the whole custem and put beef and pork up to whatever prices might best please them, this people will probably learn, to their sorrow, the true character of these grasping, greedy knaves. and will regret that they giver encouraged in their midst the growth of the vampyres who are now sucking the last drop of blood from those whose necessities compel them

to submit to the depleting operation. In order that there may be no misapprerension as to the responsibility of the above temarks, we put our name to them, hoping that we may not again be obliged to paddle

these butcher-brothers.

Pro. tem. editor of "Watchman. OIL IN MIFFLIN. - We had the pleasure of taking by the hand on Friday last our old friend, Capt. Geo. M. Keplar, one of the few lucky individuals from this neck 'o woods, who have engaged in "ile" business. Mr. Keplar has just returned from Mifflin county, where he has made arrangements to sink a well, in search of the "greasy fluid." In the part he intends operating in -Decature township, -he tells us, that the surface indications, exceed any they ever had on the celebrated Hyde and Egbert farm on oil oreek-a farm which perhaps itable to him. Mr. Hoover's committee was has yielded more oil, than any other of like composed of Messrs. Beaver, Yocum and extent in the Venango region-and that he

ilization as that.

BELLEFONTE, PA., Nov. 27, 1865.
MESSES. EDITORS: The third month of the achool term closed on Friday, the 17th inst. Many persons have asked for information concerning the condition of the schools, but, owing to pressing demands believe a report of the schools at the present time would prove acceptable to all who are at all interested in them and therefore ask space in your paper to offer a statement. The schools opened Aug. 28, and have attained to numbers and sustained a percentage of attendance largely in excess of the last session at the same period; so large that the township pupils were necessaily removed. I have introduced, opened and brought into use a series of Registers intended to contain every item of interest relating to the schools. From these I beg leave to offer a tabular statement, with the hope that it may prove an answer to all and

or the young,				٠,
Percentage of Punctuality	88	72	2	200
Per. cent. sick	-	===	2	22
Per et. attend. for quarter	88	83	82	88
Per cent. of attendance 3d mo	95	8,	23	88
Average Age	164	123	103	11.
Female Pupils	25	.31	22	8
Male Pupils	=	8	138	49
Toachers	I. T. Woods	Miss H. E. M'Cornick.	Miss K. J. Thompson.	Miss J. P. M'Bride.
Schools	High	Jun. Gremmer.	No. 2.	Primary

There are in the schools six pupils defec tive in hearing ; -12 defective in speech, and five defective in sight.

There are 35 orphans by loss of father or mother, or both. Mean temperature,-record taken at 9 a. m., and at 2 p. m., -68 degrees; extreme 88

and 44. Whole number of pupils in November, 1864, was 179. Whole number at present in 228.

The schools are in a clean and healthful condition ;--- surprising fact when it is known that there are no means of ventilation, other than throwing open windows and doors. The school furniture is not at all what it should be: and of apparatus for illustrations, there are but few pieces.

The number of visitors is increasing, yet there areo to few ; and visits by members of the board, are of rare occurrence; a majority not having been in the schools as visitors, more than once since the school began: They are, however, doing much for their constituents and would do more if they felt As far as we are concerned personally, sure of active coloperation on the part of we have but little interest in this meat mat-

the people. A new feature, I hope a beneficial one, will soon be tested in the form of a visiting and examining committee.

Much good is expected direct and indirect, through their interest as "school men.'

In behalf of the teachers and their charges, I tender a cordial invitation to all friends of education to aid us in building up schools that shall speak loudly and well for the community. I. T. WOODS.

Principal.

DIARRICEA AND DYSENTERY.—A sure remedy for the worst cases of acute or chronic Diarrhoea and Dysentary is Dr. Stricklan's Anti-Cholora Mixture—thousands have been cured by it—our Government uses it in the bospitals. It has cured many of our soldiers after all other means have failed, in fact we have enough proof of the efficacy of this valuable preparation of astringents, absorbents, stimulents and carminatives to advise every one of our readers to get a buttle and have it in readiness, and to those who suffer to try it directly. Sold by Druggists everywhere. Ask for Dr. Strickland's Anti-Cholèra Mixture. DIABRHEA AND DYSENTERY .- A sure reme

## DIED.

i Gonz to BE AN ANGEL.—Lilly Bell, daughter of Johathan and Susan Hoss, on Sunday morning November, 19th instant, aged 1 year, 7 months and 12 days.

Darling Lilly followed her little brother, a little over one year ago, both having become victims to that unmerciful disease, dyptheria. A bud was nipped on earth to blossom in Heaven. The sun sat on living Lilly on Saturday evening, but rose upon her, to set no more for-ever, as brother and sister clapped the glad hands of recognition in that blissful shore from whence no traveller ever returned. There the sun never ceases to shine. There the little shining ones have already united their infant voices in "singing unto the Lord." Truly they could exclaim, while scaling the battlements of

And note those little angels can look down from highest Heaven and see two childless, nourning parents, and call from the tomb, "Father, meet us! Mother, meet us!" and instead of being two families—one on earth and one in Heaven—let us make one everlasting family at God's right hand, where parting is known no more. Truly can it be said, "for

Bellefonte Public Schools.

In Richmond, Indians, on the 19th ultimo, Mis. Maggie A. L. Brandt, aged 29 years. The deceased lady was a daughter of Charles Larrimer, esq., formerly of this county, who settled in the West about the year 1835. Although personally unacquainted with her, we have heard her spoken of as one of those beautiful characters that sometimes make the world better for their having lived in it. Her heart upon my time, I have not been, heretofore, fully prepared to answer as I wished. I gave freely to all who needed her charity, exect ing no reward but the approval of her own conscience, and the smile of Him who has said In as much as ye have done it unto oneuof the least of these my brethern, ye have done it unto me." She was a devoted wife and mother, a Christian, in the true sense of the word, an ornament to society, and a model worthy of imiation, by all who esteem virtue, and moral worth as the brightest gems in the casket of jewels

> that composes a true woman's heart. Living, she was loved by all-dead, her memory will be cherished forever., May she sleep In North Milibeim, on the 20th instant,

nie R. daughter of Juo. H. and Mary L. Reif-myder, in her 3d year. Gone to thy rest, our Annie!
Gone to thy dreamless bed,
Gentle and undefiled,
With blessings on thy head.

Fresh roses in thy hand,

Buds on thy pillow laid,
Haste from this fearful land,
Where flowers so quickly fado. Before thy heart might learn. In waywardness to stray, defore thy feet could turn, The dark and downward way.

Ere sin might wound the breast, Or sorrow wake the tear, Rise to thy home of rest, In you celestial aphore.

Because thy smile was fain, Thy lip and eye so bright, Because thy cradle care Was such a fond delight.

Thine upward flight detain No! sack thy blessed place Amid the angel truin.

HELMBOLD, Druggist and Chemist, of sixteen years' experience in the city of Philadelphia, and which is now precribed by the most eminent physicians, has been admitted to use in the United States Army, and is also in vary general use in State Hospitals and public Sanitary Institutions throughout the land.

BUCHU.

(From Dispensary of the United States.) DIOSMA CRENATA. BUCHU LEAVES.

Properties .- Their oder is strong, diffuterish, and analogous to mint.

Medical Properties and Uses.— Buchu losvos are gently stimulant, with a peculiar tendency to the Urinary Organs, producing diuresis, and like other similar medicines, exciting dispheresis, when circumstances favor this mode of action.

They are given in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Disease of the Prostrate, and Retenton or Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. The remedy has also been recommended in Dyspep-sia, Chronic Rheumatism, Cutaneous Affections, and Dropsy.

Helmbold's Extract Bucha is used by persons rom the agos of 18 to 25, and from 3. to 55, or n the decline or change of life; aften Confine-nent or Labor Pains; Bed wetting in children.

Dr. Keyser is a Physician fover thirty years' experience, and a graduate f the Jefferson Medical College and of the Uni-

Dear Sir.—In regard to the question asked Dear Sir.—In regard to the question asked me as to my equation about Buchn, I would sky that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it I have not used or known to be used, in the various diseases where such modicate agent would be indicated. You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired in my judgement is warranted by the facts.

I have seen and used, as before stated, every I have seen and used, as before stated, every form of Buchu—the powdered leaves, the simple decoction, tinoture, fluid extracts,—and I am not eeguivant of any preparation of that plant at all equal to yours. Twelve years' experience ought, I think, to give me the right to Judge of its merits, and without prejudice or partiality, I give yours precedence over all others. I do not value a thing according to its bulk, if I did, other Buchus would out-do yours, but I hold to the doctringthat bulk and quantity do not make up value—if they did, a copper cent would be worth more than a gold dellar.

I value your Buchu for its effect on patients. I have cured with it, and have soon cured with it more diseases of the blaider and kidneys than I have ever seen cured with any other Buchu, or any other proprietory compound of whatever

Respectfully, yours, &c., GEO. H. KEYSER, M. D.,
