Four horses were brought to the Doctor

to experiment upon, all of them being vicious and unmanageable brutes. The first belonged to Sheriff Waddle, a most dangerously wicked, large black horse; the second was a beautiful thorough-bred bay horse belonging to Mr. Andrew Gregg, but utterrun away every time he had been hitched single. The third was a kicking gray mare ward by Mr. Cummings, and the fourth a vicious and unmanageable bay belonging to Mr. Garman. These animals were all brought under the most complete control by Dr. Hartman, through his safety bridle, and were utterly unable either to kick or run way. This result was most actonishing, and proved conclusively that all horses ar perfectly controllable and safe when subjected to the magic power of the Safety Bridle L We consider this invention of Dr. Hart man, as very important and valuable. People often risk their lives by driving unsafe horses with the common bridle, but with this safety bridle all danger to life or limb scems to be obviated. The patent can be sttached to the ordinary riding or blind bridle, thus avoiding the necessity of purchasing new bridles. Our farmers and those who have spirited horses would do well to have their bridles improved with Hartman's patent. Any child or lady could then drive their horses with perfect safety.

Any person wishing to purchase the right to sell this patent, for State and county, can address Dr. S. B. Hartman, Millersburg, Laucaster county, Penn'a.
