I have seen and used, as before affated, every form of Buich.—the powdered leaved the simple deception, tineture, fluid extracts,—and I am set organizate of any preparation of that plant at alleagual to yours. Twelve years' experience aught, I think to give use the right to judge of its merits, and without prejudice or partiality, I give yours precedence over all pathers. I do not value a thing according to its balk, if I die, et value a thing according to its balk, if I die, other Buchas would out do yours, but I holds so the doctrine that bulk and quantity do not make up value—if they did, a copper cent weals be worth more than a gold dollar.

I value your Bushs for its effect, on parings, I have cured with it, and have seen dured, with it, more diseases of the bladder and kildings their I have ever seen cured with any other Bushs, or any other proprietory compound of whatever name,
