Thomas Topham, the "strong man," was born in London in 1710, and was brod a carpenter, but afterward 'traveled on his muscle.' He was a quiet, peaccable man, of middle size and weight, made like other men except that the usual cavities under the arms and hands were, in his case, filled full of muscles. The wonderful stories of his feats of strength are well authenticated.

He could hold under perfect restraint, and with ease to himself; the strongest horse. He lifted a table six feet long with fifty pounds on the end, with his teeth, and hold it in a horizontal position a considerable time. He rolled up a powter dish, weighing seven pounds, with as much apparent ease as the reader would roll up a sheet of paper. He held a pewter quart pot at arm's length and squeeezed the sides together like an egg-shell.

and squeezed the sides together like an egg-shell.

He lifted 200 pounds with his little finger and waved it, gently around his head. He lifted Mr. Chambers, a clergyman, who must have lived on the fat of the land, for he weighed 378 pounds, with one hand, Mr. Chamber's head being placed on one chair avd his foet on another. At a blow he struck a round bar of iron one inch in diameter, against his arm and bent it like a bow. One night, observing a watchman asleep

against his arm and bent it like a bow.
One night, observing a watchman asleep
in his watch box, he picked up box and
watchman, carrying the load with the
greatest case, and dropped them over the
wall into Tindale burying ground.

A butcher once passed a large window
at which Topham was sitting. He stooped
down and took half an ox from the fellows shoulders with so much case and
dexterity that the man swore the devil
had flown away with his beef.

had flown away with his beef.

At a race a man insisted upon driving on the track; so Topham took hold of the tail of his cart and drew it gently back the driver whipping his horse like a madman all the time.

When he kent a public horse two men

when he kept a public house two men were determined to fight him; so, to satisfy them, he seized them by the napes of their necks, and knocked their heads together till he knocked all the fight out of them.

He astonished a sailor, who presented him with a coccanut, by cracking it close to his car as one would a peanut; and upon one occasion he lifted three hogsheads of water. Once he threw his horse over a turnpike gate, and at any time could go, through the manual of arms with the beam of a house.

N BW 5KIRT FOR 1866.—The great Invention of the Age in HOOP 5KIRTS.—
J. W. BRADLEY'S New Patent DUPLEX
ELLIPTIC, (or double) SPRING SKIRT.

J. W. BRADLEY'S New Patent DUPLEX ELLIPTIO (or double) SPRING SKIRT.

This invention consists of Duplex (or two) Elliptic Pure Refined Steel Springs, ingeniously braided tightly and firmly together, edge to edge making the toughest, most flexible elastic and durable spring ever used. They seldom bend or break, like the single springs, and consequently preserve their perfect and be utiful shape more it in twice as long as any single skirt that ever has or can be made.

The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex ciliptic skirt will be experienced particularly in all crowded assemblies, operas, carriages, railroad cars, church pews, arm chairs, for promenade and house dress, as the skirt can be folded when in use to occupy a small place as easily and conveniently as a silk or muslin dress,

A lady having enjoyed the pleasure, and great convenience of wearing the Duplex elliptic steel spring skirt for a single day will never afterwards willingly dispense with their use. For children, misses and young ladies they are superior to all others.

The hoops are covered with 2 ply double twisted thread and will wear twice as long as the single yarm covering which is used on all single steelhoop skirts. The three bottom rods on every skirt are also double steel, and twice or double covered to prevent the constantly aubject to when in use.

All are made of the new and elegant corded tapes, and are the best quality in every part, giving to the wearer the most graceful and perfect shape possible, and are unquestionably the lighest, most desirable, comfortable and economical skirt ever made:

MEDICINAL.

LINDSEY'S BLOOD SEARCHER

LINDSEY'S IMPROV'D BLOOD SEARCHER

IN LARGE BOTTLES,

Is particularly recommended for use during th Spring and Summer, when the blood is thick and circulation retarded

by unhealthy secretions. This perfectly safe though powerful Purifier, cleanses and renews every portion of the system. It is the only gen-uine and original Blood-Searcher, which fol years has performed the most wonderful, ye ermanent cures, in confirmed cases of scrofula, id sores, tetter, tumors, boils, and all kinds of crofulous cruptions.

It is also a reliable remedy for salt rheum, ing-worm, scald head, and kindred diseases. As a general tonic its effects are most benig nant, and cannot fail to benefit where used ac cording to directions.

We make no claim to having discovered a "Panacea" or "Universal Remody" for all the allments to which flesh is heir; but we do claim what countless facts have fairly and fully established, that in the

BLOOD SEARCHER

the afflicted will find a "standard medicine," one upon which they can rely as a sure specific for all diseases for which it is recommended. I have this day, October 7th, 1864, disposed of my entire interest in J. M. Lindsey's improved BLOOD SEARCHER, to R. E. Sellers & Costogether with the right to use my name, in it' preparation. The only genuine article will hereafter be prepared by them exclusively.

Mr. R. E. Sellers—Dear Sir: I am entirely out of your "Imperial Cough Syrup." Will you send me, say six dozen? I do not want to be out of it, as it is the only medicine that will come so near raising the dead. It will cure the worst cough immediately. I have recommended it to persons and given them one bottle on trial, and in every case they have given cleur testimony that it gave immediate relief.

I have used it in my own family, and find it a siffe cure for coughs and colds in all cases. One trial will convince any person that it is a sure out of or the worst of coughs and colds.

THIS GREAT

INTERNAL REMEDY

is the best medicine ever offered to the public For the effectual curs-of rheumather, gout, neuralgia, dyspopsia, and as a blood purifier, it has no equal; for all diseases farising from an impure state of the blood, such as scrofula or king's evil, scald head, tetter, ring-worm, formale complaint, and all broak-outs on the face and body. The vast, number of rub-on medicines which formerly have been used for those diseases were merely temporary in their effects, and of doubtful virtue, but the

RHEUMATIC COMPOUND

reaches the source of all trouble, and actuall banishes the disease from the system by its immediate action on the blood. We advise one and all to give it a trial, and become satisfied of its wonderful nows.
