THINGS ABOUT TOWN AND COUNTY

Ws call the attention of our readers to the Treasurer's sale of unseated lands, published in another place. 4

Lar vs Know .- Those of our subscribers who have changed their places of residence will please notify us of the same, in order that our carrier may know, where to leave their paper hereafter.

SAD OCCURRENCE.-Ex-Governor Bigler and Hon. W. A. Wallace, passe, up the road on Tuesday last, from Lock Haven, ring in charge the body of a son of the ormer, who shot himself, it is supposed asidently, in Lock Heven. This is the secon that Governor Bigler has lost within the last two years. We believe the young man's christian name was Reed. We have not dearned the particulars of this sad oc-

TRIEVER .- Pleasant Gap seems to be infested with a band of thieves, who have lately been committing their depredations on some of the citizens. Last week we chronicled the robbery of a couple of shoemaker shops, and since that time Mr. Gettle has been relieved of fifteen dollars and Mr. Tate of one hundred. Mr. Tate is willing to awear to the guilt of one of the parties, named Riddle and advertises him in another place in this issue.

County Postmasters should bear in mind, for their advantage as well us that of the local press, that for every county paper delivered by them to subscribers, they are entitled to retain of the post office funds ten and one-half cents per year. It is for, their interest as well as for that of the publisher, that the county papers be preferred, since there is no trouble of making collections or keeping accounts thereof, as on papers printed out of the county, the commission on which will not average more than from six to sight cents per year.

BULANCEMENT OF THE "WATCHMAN" .-The proprietor of this paper is now in Philadelphia for the purpose of buying the necessary material to make THE DENOCRATIC WATCHMAN an eight column sheet. After the first of May, therefore our subscribers may look for a larger paper, and we hope they will appreciate it enough to endeavor to extend its circulation. It will be printed on a handsome new power press, and will take the "shine" of of everything in this part off the "Vineyard." WILLIAM GILMORE SINNS, the celebrated Southorn nevelist and poet, has promised to contribute some for the WATCH'X IN, and we hope to make similar arrangements with a few other prominent writers. We hope our friends will do all they can for us, and in return we promise to do all we can for them.

Tun Rosspan:-The total colings of the moon on last Friday night was generally observed by our citizens. The shadow began to darken the face of the moon about o'cleck and 88 minutes, and at about 10 clock and 45 minutes the obscuration was total, and Luna became invisible to mortal ayes. People seldom see a total eclipse more than once or twice in a lifetime, and bence the exhibition of Friday night was lar circumstance that there was no full moon in the month of February, a thing, we see it stated, which has not occured before since the creation of the world, and which will not occur again for morethan two "mil-Non of years, when, in all probability, time will be no longer."

"SPEING BE HANGED."-One of our co temporaries says, in speaking of spring, that, in spite of all the poets that ever rhymed "trees" to "breeze" or "knees" to "fleas," it's a humbug and an April fool. It's not pleasant, no how. March and April are the ugliest months in the year-alspecially both of them. The wind is altogether. too high. People see dust, feet dust, eat dust, drink dust, and breathe dust, and do everything but "down with the dust." One day the warm weather effectable nervous system with a strong weakness, and the 'spring fever' becomes general; while, on the next, a nor wester bungs up all heads. and forces the most festiduous to sniffle out "Good bordig," all of which is somewhat unpleasant, and even unromatic.

"T GALAXY."-An illustrated Magasine. This is the title of a new illustrated magazine, advertised to be issued by "The erican News Company" on or about the instant. It will contain the best serial stories of the day, and will be gottest up, typographically, in a style that will surpass any other publication in the country. Its illustrations will be from design; by the most celebrated artists, and it is intended to make it the most striking and elegant magazine in the Union. Besides the best serial stories, it will contain light essays, sketches, poetry, and a lively review and summary of the photeest articles of the leading periodicals of the world. It will be printed on new type, sast expressly for the purpose and on fine calendered paper. The Galaxy will be sold at the low price of 25 cents per copy. TOTAL EGILPER OF THE MOON—LUNA UN-BER A GLOUD.—À total cellpse of the moon is a phenomenen of considerable importance, as marking colestial stas which do not obtrude themselves. upon man's attention every day in the year, and which are suf-

ficiently stronge to be classed as a least inficiently strange to be classed as a lease of the strain o tell even a tyro in astronomy that the moon, the planet which was eslipsed on Friday evening, is the heavenly orb which revolves around the earth, and which, according to the poet Butler, was in ancient days believed to be made of green cheese, and which all the ladies of a certain or uncertain age now believe contains a man. It is also the orb which Juliet advised Romeo not to put faith in, when she said :

O, swear not by the moon, the inconsistan moon, That monthly changes in her circle orb."

And this planet also gives light for us which it borrows from the sun, when that peregrinating sphere is supposed to be on a short visit to China and the nether hemis phere. Its main distance from the earth is about sixty semi-diameters of this globe, or 288.545 miles, and, considering this fact, we should take it as an especial favor that she appropriates somewhat of old Sol's radience to transport such a weary distance for an illumination. Indeed, what would lovers, and poets do for stock in trade were sweet Lune suddenly removed from her or bit? They would be bankrupt, and would have to seek out some new favorite on which to bestow their rhapsodies. Yet the sun sends his rays ninety-five millions of miles to enlighted the inhabitants of this part of his sphere; but then that's in the day time, and he need not be thanked for it. The moon shines when he is attending to other

affairs. Praise be to the moon ! The eclipse of Friday evening took place to near midnight that it is a subject of some wonder among the dilatory and processtinating people that it was not postponed tinating people that it was not postponed until yesterday. Топизом. RHEUMATIC COMPGUND

No Medicine for the cure of Rheumatism has ever attained to such a high degree of favor and universality as JOHNSON'S Raesmark Compound. Although but one year before the public this medicine has justly gained as unbounded popularity. When the originator first introduced it he was convinced of its efficacy, but he little thought it was destined to preve such an inestimable blessing to the afflicted; but true merit can not be suppressed. The attentations of hundreds who have been cured by it must prove the truth of the assertion that it is
