STABBIEG AFFAIR. We understand that a man by the name of Robert Calhoun ligstabbed by another, named John Greek, on Saturday last, in such a manner that his life is despaired of. Jealously, or suspented eriminal intimacy between Calhoun and Greeks wife is said to be the cause.

WASTS A NOTICE .- We should judge from th conduct of Betsy McCullough, Post Mistress at Walker, that she is expeedingly desirous of being noticed, and to gratify her vanity, we give her this one gratis, with the infor mation that unless she attends to her official duties better than she has been doing, we shall have her attended to. Will Berry remember this ?

WHY IS IT .- For some reason or other th work of cleaning up, and putting in order, the Streets and places, about town, is not progressing very fast. He was an honest upright man, in all the relations of life, a member of the German Reformed church, and died respected and mourned by a large circle of relatives and friends.

Thinking they would get their money back this time, the "greenies" pitched in and it was but a few mements until he was rid of some dozzen of lockets, when reigning up his horse he very coo lly remarked that this time he had not promised to give back they money, and that the purchaser could consider it a bona fide sale whereupon he drove off amid the shouts of those who were sensible enough not to invest, and the curses of the poor fools who had been bitten. The lookets are perhaps worth ten cents-not more. It may be well that such seamps do travel the country, just to show some folks what fools they are.

AGRICULTURAL MERTING .- A meeting to reorganize the Centre county Agricultural Society was held in the Court House on Tuesday evening last, the proceedings of which will be found in another place. This is a move in the right direction, and we are glad to see another effort made to revive the agricultural spirit of our people. We hope our farmers and all who feel an interabout minty dollars, mostly in gold and silest in the cultivation of the soil, (and who does not ?) will take hold of this matter with energy and determination, and help to make the Fair, which it is hoped we will be able to hold next fall, a successful and profweek, has been so far very successful. The lumber that the thieves about town has left, lies there unmoved, and we suppose will be permitted to remain for months blocking the corners of the crossings in place of bridg ing the gutter. If the devil and abolition. ism had no more push or enterprise in them, t han has the town council of Bellefonte, the infernal regions would be empty and our that when the borough election come round again, these drones who act as borough fathers, and do nothing but levy and collect taxes, will ask the support of the tax payers of the borough to keep them in the positions they now hold. Will they get it? P. S. Since the above was in print, we notice, that the council is having the gutter filled with a box.

In Town. - His excellency, Governor Andrew 6. Curtin, was in town this week on a visit. We saw him in the Court House on Tuesday. Although somewhat thin, he looks well. Lar community would be safe, yet we suppose ger, finer, or more thrifty trees we have never seen furnished by a mursery. The necessity of fruit is known by every one that has a place to plant it, and we think if those in want of trees—and who is there that is mot?—could see the splended lot brought to this place by Mr. Streeter, they would know at once where to procure good condition and as represented.
