FRIDAY MORNING, JUNE 22, 1866. TERMS: \$2 per year when paid in advance. 25¢ when not paid in advance. Not paid before the expiration of the year.

FOR GOVERNOR, HON. HIESTER CLYMER, OF BERKS COUNTY.

No Shirking the Issue Now.

On the 4th inst., the division faction in Congress succeeded in getting through a two-third vote of the whole number of members to amend the Federal Constitution, they have been hatching up for months past.

Seemingly was the fact announced, until the miserable tool who acts as Governor of Pennsylvania sent a circular letter to the Governor of the other Northern States, requesting the immediate convening of their Legislatures in extra session to ratify and amend the same.

As to the illiberality of the proposition, that are to fasten negro slavery upon the people of Pennsylvania, and other States, there can be no question. There is no one foolish enough to assent to representatives in Congress from Massachusetts, from New York or Ohio have anything at all to do with the qualifications of electors in Pennsylvania.

The privilege of designating who shall enjoy the right of suffrage is a privilege which belongs to the people of the different States, and in their State Constitutions the qualifications are laid down. The Constitution of the Federal Government has no more right to say who shall and who shall not vote in Pennsylvania than it has to say who shall be Governor in that State.

It is no more right to force the white voters of one State to march to the ballot box with a negro than it is to compel them to walk up to the altar and marry a woman.

But even admitting that the Constitution of the United States could be amended as to make the qualifications of electors in any State where the local law is adopted. Two-thirds of both houses of Congress did not propose the amendments, for fifty-eight representatives and twenty-two Senators were excluded from voting, and only a less two-thirds of the whole number of Representatives are composed of two hundred and forty-two members of these less than 100 supported the amendment. The Senate is composed of 72 members, of these less than 40 supported them. Can any one manufacture two-thirds of both houses as the Constitution requires out of this number?

Did the Constitution of our country need amendments, it would be time enough to make them when the passions and prejudices of the people, excited by the terrible war through which we have just passed, had cooled down; when all the States were filling their proper places in the Union and peace and harmony again prevailed. It is no more parsimonious to calculate to be abused and amended to suit every whim of public opinion, neither was it adopted to be patched and pieced, by men who regard not its provisions nor recognize its doctrines.

If, however, it must be amended—if the action of the thieves, plunderers, wench-worshippers and prostitute keepers, that are acting in the capacity of Congress now, is to be recognized as legal, let the voters of the States have an opportunity of approving or condemning it at the polls. There is no necessity for ANDREW CURTIS calling an extra session of the Legislature of Pennsylvania, at an expense of over two hundred thousand dollars, to ratify these amendments of the Constitution. It will be more enough to do that after new representatives are elected, upon the issues which these question produce. But abolitionists will allow the people to such opportunity of approving or condemning its action. It fears their verdict, and will move Heaven and earth to forestall their opinion.

What will be the consequence of the determination of the party in power to force upon the country at all hazards, its hideous doctrines of negro equality and amalgamation, no one can tell. That it will be done there is no room to doubt. Already proclamations are written for the "holy" Governors of the Northern States, convening extra sessions of the Legislatures, to ratify these so-called amendments—and ere the fall elections come around, so far as abolitionists will be able to accomplish it, the odious principle will be engrafted into our Constitution. If there be no other result, it cannot fail to open the eyes of the voting masses to the real aims of JOHN W. GEARY. He is the representative of the party that is now attempting to foist negro equality upon them against their wishes and consent.

Part of the abolition press of the North would like to manufacture a little political capital out of the arrest of the Fenian leaders, if they knew just how to get about it. The fact however, of their being the bitterest enemies Ireland and the Irish people ever had, and their attempts a few years since to disfranchise all foreigners, is a stumbling block that they can't well get over. They had better stick to the negro.

The Only Mode of Escape.

Whether or not the people of the Northern States intend opening their eyes to the times and outrages, being perpetrated upon them by abolition fanatics, we have no means of ascertaining. For years they have submitted to wrongs, that would have caused the people of Russia to rise in revolt, for years they have borne insults and grievances, which no people before them have borne, and which we hope no people after them will bear.

They have submitted to the more malicious by which they are to rise in honor and power—the instruments by which they are to attain ease and an influence—the tools with which they are to work out their ambition. Yet oppressed, plundered, outraged, and degraded as we have been during the past six years, they must take in order to occupy the position desired for them, by the leaders of the party now in power. It is not enough that they have staidly by and caught their treasury plundered of all it contained, to enough political demagogues, it is not enough that they have quietly submitted to the most burdensome taxation to have freedom of religion, it is not enough that they have imposed and enslaved themselves, to destroy their own government, it is not enough that they have been driven into emigration and left in fields desolate as the waste of the Crimea, and the hosts of Helder Bay, to carry out their pariah revenue, it is not enough that they have covered the land with the graves of their own kind, at the mere dictate of those in authority, nor is it sufficient that they are now willing to look out from the foot of the party tyrant, that Washington Abolitionists do not do more than this, and it will be satisfied with nothing but its demands. Although it has rained on countries, it has not rained on our hearts, it has not rained on our souls, it has not rained on our consciences, it has not rained on our eyes, it has not rained on our ears, it has not rained on our hearts, it has not rained on our souls, it has not rained on our consciences, it has not rained on our eyes, it has not rained on our ears.

Death of Hon. Lewis Cass.

Another great man has fallen. Scarcely have the bells ceased to toll their mournful requiem over the grave of General Scott, when the American people are again called to weep at the tomb of the great departed. Lewis Cass, the old soldier and statesman is no more. He died at his residence, in Detroit, on the 17th instant, aged 84 years. This has closed the long, eventful and useful life of a man whose existence was an honor to his country, and whose private and political purity has never, perhaps, been equalled by any public man of any age or nation.

Pull of years and full of honors, this great American Statesman has gone to his long home. He had seen much, and in the field and in the cabinet, and no man has ever said that he did not perform his duties, in every station, faithfully. He was also, talented and conscientious. With CLAY and WEBSTER, he upheld the compromise resolutions of 1850 in the United States Senate, which saved the country, for the time, from the horrors of civil war, and hushed back the demon of fanaticism, which has since, unhappily, deluged the land in blood.

He was among the constellation of great men consisting of CLAY and WEBSTER, and CALHOUN and BREVINTON and WOODBURY and others, of whom our country is so justly proud, and was the last star of the collection. With his death, that shining group has become extinct and the political sky now presents no luminaries of equal height. Well may the American people mourn his death. His life was a link connecting them with the motives of the glorious past, and now in this day of darkness and trial his death may be considered as a snatching of the ties which bound this generation to the brave and gallant spirits, who yesterday saw with prophetic eyes, and today battle against the coming of the very "day of desolation," that is now upon us.

Reported on page May the negro green above has honored and beloved grave.

While in Pittsburg, last week we had the pleasure of meeting Mr. J. H. Odell, editor of the *Western Lead*, an able and spirited Democratic paper published at the town of Heavens, in this State. Mr. Odell is a young man and distinguished in his whole team and his own. He has a high and noble character, and is a true and noble American citizen. He has a high and noble character, and is a true and noble American citizen. He has a high and noble character, and is a true and noble American citizen.

A general readers, desirous and other characters, have organized themselves into a company for mutual defense against the law in western North Carolina.

The very chiefs, we'll bet our hat, are continually howling about the "deceitful" character of the native North Carolina, and into whose hands the STANLEYS and the other traitors, Washington would place the Government of that State. They are Southern "loyalists," manufactured out of New England abolitionists, who have gone down there to rob tobacco and feed the wench-bureau.

Plain and Homely Truths.

Peter Podger, family man, is a person of plain reasoning and direct application. He is in the habit of talking to himself, and his conversation is full of common sense and good sense. He is in the habit of talking to himself, and his conversation is full of common sense and good sense. He is in the habit of talking to himself, and his conversation is full of common sense and good sense.

A Dangerous Delusion!

There are multitudes of men attached to the ideas and principles that are vulgarly called "Democratic," who are ready to believe that the Democratic party is going to carry the day in the next fall elections, by some kind of "manifest destiny." We think it is a very dangerous delusion, to believe that the Democratic party is going to carry the day in the next fall elections, by some kind of "manifest destiny."

Abolition Reduced to Practice
