It dispenses entirely with a reel, and its necessary supports, thereby dininishing the weight and draught of the machine the rake and reel being combined in one, makes less machinery, anakes it simple and less linkle toget out of order. It is the simplest and lightest draught machine to use; it has the only self rake that will make a side delivery and do good work in all kinds or conditions of grain and it has no side draught or weight upon the horses' necks. As a Mower, there is none to comprete with it; it has a steel finger har, and a spring steel draught har, which adapts itself perfectly to the unavon-surface of the ground, it has two driving whosely, which work jointly and independent of each other, which was to be used from the best with two first was to be used from the first was to be used from the second of the ground it has two driving whosely, which work jointly and independent of each other, which enables us to be used from the second of the ground, it has two driving wheels, which were always on one wheel. There are several machines of fered to the public that has et we carriage wheels but they are not obsolute down the hard of the whole when the second is desired to the whole when the store of the school of the second of the ground it has an oright to find the rest of the public that has an eight be folded for transportation. The hard store is the sum of a double derive wheel machine, the hard sum of the second of the ground o

bas no equal. It is simple, easily managed, reliable, durable, compact and cleanly to work by not as dusty as the common threshing machine it is permanently fixed on two whoels for hauling and thresing, and one man can more or, shift it about in a barn floor more easily than a common-threshing machine. It is adapted to any common four horse or two-horse tread power, and requires less hands and no more power than a common-threshing machine and shaker; it actually runs lighter and enables you to thresh and clean your crop in one half the time; it will thresh and clean all kinds of grain thoroughly clean by one operation, ready for mortal, no matter how filth). Olive it a trial It is corranted to give satisfaction, and I am willing to be responsible of it does not come up to to all that is claimed for it. THE WORLD-RENOWNED SINGER SEWING MACHINE. There can be no greathy evidence of its superiority over all others, than the simple-fact that all of the interes, without an exception, all of the militarers, without an exception, and all of the mostas mulers and dress makers, without an exception, in Centre county, are using it in preference to any other, thus is a fact that cannot be disputed. There are also hundreds of prirate families and farmers in every township in the county who can and cult lensify to its unrivaled merits; in a word it is the only machine that will see all kinds of goods, from the heariest to the finest, and all kinds of thread. This I will warrant it to do, or no sele The Singer has been lately im roved so as to make it almost noiseless, and simple in the extreme, and the price reduced. It will stitch, quilt, hem, fell, braid, tuck, cord, gather and sew on the band at the same time; any child can operate it, and the it the same time; any child can operate it, and it it is warranted not to ge, out of order I give full and chumplets practical instructions on the mactine to every purchaser.
