An Insult to the Soldiers.

The Central Piers, the abolition organ in this place, is terrified at the thought of the Soldier's Convention that is to meet at Harrisburg on the 1st of August. In a frantic appeal to the soldiers, in its last issue it arges them not to attend, and says none but cowards and deserters will be there Did the Prese read the call for that convention which we published in the WATCHMAN a couple of weeks since? Weres there no names, among that long list of signers to that call, but the names of cowards and deserters. We are of the opinion that he of the Press did not read that list over as attentively as he should have done else he would not have risked his reputation for truth and verocity in the

manner he has done.

But the soldiers will pay no attention to this spasmodic attempt to dissuade them away from the synagogue of truth. Their interests are centred in that Harrisburg convention, and they will be there in droves. That bastard thing at Pittsbarg did not represent their views when it pledged their support to John

It seems that the insatiable may puritan abolitionism is not yet satisfied All the blood the desolation the tears and suffering of the past five years, have failed to appease its voracious craving, and, with all the shrewdness of the devd, through its agents at Washington, is laying its plans for another war 1 wants more victims, its plundering spec Mators wants more contracts, its thieving generals want new fields from which gather pianos, furniture, silverware, horses, and clothing for their women and children, its preachers desire new opportunities to belch forth their blus nemies, in the name of "loyalty and niggerdom, its officials want a continued lease of the offices, and a life-long opportunity to rob the treasury of the people. How do you like Statis out of the Union? How do you like the expendique of millions to keep up the Negro Bream whilst you and your families must earn your bread by the sweat of your face? How do you like the contribute, presistent and endless legislation by Congress for the black's, which not a single enertiment is made for your ritlef? How do you like the doctrines of the Radical's that you fought for Negro Suffrage and the Equality of the Races, Instead of for the Prinon and the Constitution?
