Dear Nitis—In regard to the question asket f me as to my opinion about Hacks, I would say that I have used and sold the article in various-forms for the past thirty years. I do not think there is any form or preparation of is I have not used or known to be used, in the various-diseases where such medicate agent would be indicated. You are aware, as well as myself, that it has been extensively employed in the va-rious diseases of the bladder and kidaeys, and! the reputation it has at futured in mg judgamont is warranted by the facts.

I have seen and used, as before stated, every form of Hacha—the powdered leaves, the simple descriton, tincture, fluid extracts,—and I am not cognizant of any preparation of that plant at all equal to yours. Twelve years' experience ought, i think, to give me the right to judge of, its merits, and without prejudice or partiality, I give, you's precedence over all others. I do not value a thing according to its bulk, if I did, other Buckes would sut-do yours, but I hold to the doctrine that bulk and quantify to not make, up value—if they did, a copper cent would be, worth more than a gold dollar.
