Must Be TRICE. -Pheasants are said to be so plenty along the Snow Shoe Railroad that the engineers have to stop at times and drive them off the track, to clear it for the trains. We bardly believe it. A PLACE THAT NEEDS IT .- A protracted

WARRING .- We would again warn careles people of the danger attending a careless handling of Kerosena lamps. Our exchan-ges are filled with accounts of accidents from this couse by which women, children and servants lose their lives. A lamp upset, and the whole mass of oil instantly ignites, running over everything, and setting fire to the clothing of women and children who may be near. We have a good sixed town and it is growing tast; we have a county surrounding it, that could and would furnish one-of the best markets of Bellefonte, and Miss Sarah Hall, of Howard, Centre county, Pa. in the State, with all kinds of country marketing. Thousands of little luxuries, that farmers would be glad to dispose of, and that our citizens would delight to purchase, go to waste, simply because those who have them to sell do not feel disposed to go from door to door to find a purchaser. Butter. eggs, apples, potatoes and all the necessa-ries of life, could be had of the best quality, because the country produces them in abundance, and our people need only fur-nish farmers the place to dispose of them at, without pedling round to hunt up custo-mers, and they will be well suplied at all times. And besides, a market house built and managed properly, would be no expense to the public; it would be an investment that would pay, whether built at the ex-pense at the borough, or by private hands. We know that it is to late in the season to attempt the creation of one now, but let the aubject be canvassed, and let agrangements be made to put up a good substantial building, for that purpose, early in the apring.
