There can be no greater evidence of its superi-rity over all others, than the simple fact tha il of the testors, without an exception, all of the sultrars, without an exception, and all of he southers, without an exception, and all of he southers indicate the state of the second of the contraction in Combine acceleration. the satistices, without an exception, and all of the same nukeers and decas studers, without an exception, in Centre county, are using it in preference to any other; thus as a fact that cannot be disputed. There are also hundreds of private fassilies and farmers in every township in the county who can and will seriely to its annivaled merits, in a word it is the only mechine that will see all kinds of thread.
