THE TWO ARMIES. As Life's unanding column pours, Two minshilled column pours, Two semies on the trampled shores That Death flows black between.

One marches to the drum-beat's roll, The wide-mouthed clarion sibray, And bears upon a crimson scroll, "Our glory is to slay."

One moves in silence by the stream, With and yet watchful eyes, Calm as the patient planet's gleam That walks the clouded sk ice.

Along its front no sabres shine, No blood-red pennons wave; Its banners bear the single line, "Our duty is to save."

For those no death-bed's lingering shade ; At Honor's trumpet-call, With knitted brow and lifted blade In Glory's arms they fall.

For these no clashing falobions bright, No stirring battle cry; The bloodless'stabber calls by night -Boho answers. "Here am I!"

For these the sculptor's laurelled bust, The builder's marble piles, The anthems peaking o'er their dust Through long eathedral hisles.

For these the blessom-sprinkled turf, That floods the lonely graves, When Spring rolls in her sea-green surf "In flowery-foaming waves.

# A GRAPHIC PICTURE OF A SAD BEALT-

A writer for the Albany (N. Y.) Argus, in course of an articler depicting the present unsettled state of the country. the depres-sion in trad-, the stagnatio... in business, and the grindring laxation res...ng upon grery branch of industry, says

"We are told that when a certain persoh-age was buried alive with his yead wife in a large cave, he had a pitcher of water and a large the state of the state of the state coffin of his wife, upon which he sat, that he might now and then take a brumb, and sip a drop to prolong his life a while. when the mouth of the cave was abut upon him he was wrapped in uffer darkness, and had to feel his way from his mouth to his brend and water Thus was be left to his fate One day he heard a noise among the

ones of the cave, and in an effort to see rom whense it came, he discovered through the damp darkness, far in the distance, a faintly twinkling light Inspired thus with hope, he started for that light, stumbled over coffin after coffin, pile after pile of bones, until he rejoiced to find the light to be from a hole in the bank of a river, through which a monitout serpent entered to feed upon the dead Thus he found relief and nade his escape.

"The people are now literally buried beseath a crushing buriben of debt and taxa. on as within a cave of which the faction are the keepers. It is true that in their funeral rites they allow the buried, or most of them, a loaf of bread and a pitcher of water. but sad to sky, many before going down have to sell their loaf of bread to pay their taxes, and descendiwith only a pitcher of ater. But it must not be understood that all the people are as those in the cave, or earing burthens of jazztion.

"These keepers of the cave visit no such burial upon their favored few Their spec ial friends have dispensed to them \$3,000,-00,000 of bonds exempted from all taxa. on, producing an income affording luxury and ease But, alas! let us lift the iron door of the cave and look down, and whom do we see sitting upon the stone coffins of ar own destinies? It is the millions of ur laboring and industriats classes; the very life and hope of our people. for whom the political rulers of the day have no more feeling and sympathy than they have for beasts of burthen. There they set with but a losf of bread and a pitcher of water to sus-tain their lingering lives, while bearing upon their shoulders the crushing weight of a nation's liabilites. If they turn an eye toward the faction that controls, and hope for relief, they behold only the insulting guilt of voting \$2,000 a year more into their own pockets to be added to the burthens of the tax payers of our country. These dwellers in the cave may, in their surround-ing darkness, hear the rattle of the serpent mong the bones, and feeding upon their nuscles ; but as yet it is vain that the least ray of light is seen to awaken a hope of relief If they listen to what is said above they only bear it declared that 'Democracy

is dead,' and sink back to their bread and water as their only fare of life." Where, tax-payers may well be asked, is

their least possible hope, under the present reign, from the pressure of \$8,000,000,000 exempted espital; a debt of that amount to pay, or its annual interest ; a high tariff sure to be imposed ; a tax upon every sheet of paper upon which a contract is drawn, or a sorap upon which a note or receipt is given; State, conniy, and municipal debts; ten States to be governed by military au-thority at an enormous expense; a perpetual Congress; conflicts of authority between the Departments of the Government, leading, may be, to armed conflict? The question is a very grave one, and should set every friend of the country and humanity reflecting, for the end is not yet.
