Jobber's profit, 25 per cent \$240 etailer's profit, 25 per cent..... \$300 Thus the apparent duty of 60 per cent

Thus the apparent duty of 60 per cent course to the consumer multiplied by the profits of at least three dealers; so that-when the consumer has got his goods he has paid not only the tariff but 70 per cent. of that tariff in addition. If the goods are made in this country they are furnished by the manufacturer at exactly the importer a price \$192 or its equivalent in currently and then the jobber's and tetaliter is profits carry the coast to the consumer to the same figure as the imported arrivel. So, whether the consumer buys the imported or the do-mestic article, he pays the tax.
