ATER'S CATHARTIC PILLS are the most perfect purgative we are able to produce and, as we think, has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the other medicines in use. They are aske and plossant to take, but powerful to cure Their penotra ting proporties stimulate, the vital activities, of thebody, remove the obstructions of its organs, purify the blood and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart then and strength to the whole system. Not only do they core the every day complaints of everybody, but formidable and dangerous disease. While they produce powerful effects, they are at the same time, in diminished doses, the affect and best physic that can be employed for children, being stigar coajed, they are pleasant to take, and being purely vegetable, are entirely harmless. Curek have been made that would surpass belief, were they not substantiated by men of such exalted character, as to rebuil the suppiction of unitruth. Many eminant elegymen and physicians certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflected follow-men
