8 ETLINGER, of Haines Twp ~ Our Selfish Interests

It is, perhaps, useless to appeal to the

pre-tice or humanity of those who con-trol the policy of the North towards the We have often been inclined to South think that anything of that kind would is utterly thrown away upon the insare and fanatical men who support the ma hanning programme marked out by THADDELS STEVENS But there are many arguments against the course now being parsued which appeal directly the vital interests of the people of the North Leaving out of the question entirely all considerations of justice, of humanity and of decency -- for the followers of radicalism have igaored, them all-- and the appeal to the mere selfish instincts of the northern people ought to be strong enough to guide them into a different line of policy from that they are now pursuing We cannot afford to carry it out Let any man of sense examine carefully our financial condition, just as he would examine that of any private individual, for the same rule applics in both cases -- and see whether we can afford to go on increasing our debt. for the mere purpose of crushing and humiliating the South, and of keeping any political party in power. To govein the South by the military despotism in operation there has very bad effects upon the mere selfish interests of the North In the first place, it easts us a vast sum of money to keep up th brachmers of such a government, and we get nothing whatever as an equivalent, for surely the gratification of a brutal spirit of revenge and hate cannot be considered an equivalent. In the second place, this course towarl the South prevents the prosperity of some of the finest States in t'e Upion, and of course deprives us of the revenue we would receive from them. This increases the burdens of the people of the North. It costs us annually many milhons of dollars to prevent the most wealthy portion of the country from taising their proportion of the revenue Surely our people must be as blind to wir own interests as they are deaf to the appeals of common justice in behalf of the oppressed people of the South.

There is another aspect in which the question may be viewed, and in which it will appear that the direct solfsh inter ests of the northern neople are serinasi affected. There are vast regions at South which are only thinly peopled or not peopled at all, and which have the finest chimate and best soil in the world The great objection which was hereto fore urged against emigration to the South, to wit, the existence of negro 'slavery'' there, can be urged no longer and there would be a ceaseless stream o emigration towards the gulf but for the

f their deluded fol rs to prejuthis the inducements to emigrate to the dice them against Democrats, and Demoeratic measures. It is about as truthful as most of their reports, and the people of this section know how true it is. The name of the person charged with the could go South and buy the best of land erime is not GEGAN, but GAHAGAN OF for fifteen or twenty dollars per acre, are The name of the person charged with the crime is not GEGAN, but GAHAGIN OF his guilt or innocence we know nothing. But so far as his being connected with the Democratic' party is concerned, it is a most infamous he, and the individual who started it—the poor besotted For-lit at the time. GAHAGIN is but a boy, yet so far as his polities goes he is a radical of the most intense stripe—he has not even a relative that is a Democrat_i nor a friend that clings to the Democratic party. His father, who was a respectable and worthy citizen of this place, was at the time of his death, a leading abolition politician of this county and the boy so far as politics goes takes after him It will not do for a party whose leaders have gone down into the tomb and pleases them, all they have to do is to robbed the dead of the gold filling in their teeth, of the shrouds that envelope their cold forms, and stolen the plates from the lids of their coffins-it will not do for a party whose chief men are convicted perturors, and professional thieves, to attompt to foist the little scamps of their party, who are following in the footsteps of their God-BUTLER unto the Democracy. The leaders of mongrelism set the example of robbing grave yards, and if GAHAGAN is guilty, he is but carrying out the teachings of his political tutors. This instance will show our readers throughout the county, how reliable mon-

The Republican party does not stand by the Constitution " They have never male ut the rule of their conduct—the guide of their action. They have never ap-precisated its wisdom; they have never cut-tivated respect for its binding obligation, and so they have never studied its spirit or just letter. Whatever they device to do, whether from a succer belief that they good of their country demanded it, or that their party interest required it, that they have always been their rule. Hence, to oppose this opinion is to favor repudiation The Mongrel prevs cannot attack Judge Sharwood upon this point, without com-promising Judge Williams Judge Sharswood's opinion was recogni-zed by the Black Republican Legislature of Pennyivania, as correct The interest on the debt of Pennsylvania was payablo in specie. When greenbacks were at an immense discount the Black Re-publican Legislature passed an not repudi-ating the contract, and ordering the pay-ment to be made in greenbacks If Judge Sharswood was wrong in his opinion, there was no excuse for the Lo-gislature to pass the act of repudintion, be-cause Congress had already made green-backs a legal tender If the Executive officers of the Common-wealth could not pay its specie contracts in legal tender, without the act of repudi-tion, neither could an indbidual, and Judge Sharswood stands vindicated by a Black Republican Legislature Costracts are as buding upon individu-nis as upon corporations and governments. If individuals can repudiate a contract by the act of Congress making fapera legal tender, then the Secretary of the Treasurf of the United States has no right to pay government bond holders in specie, be-cause Congress howithstanding the con-tract, has made greenbacks legal Leuder That which is right for one is right for all fludge Sharswood's opinion is knoored by the secretary of the Treasury of the United States has no right to pay government contracts, like all others, are, a mere Black Republican moon shine and greenbacks everything Judge Sharswood's opinion is knoored by the Secretary of the Treasury of the U S, who regards contracts as binding. South would be far greater to day than ey ever were to emigrate Westward Thus, our people are not only prevented om seeking their fortunes where they please, but the country is kept from propering as it would do if the governments of the Southern States were upt obstructed in their operation. It may be suppo ed by some that the military government is not intended for Northern mer and that it will not .affectythe "loyal" But there could not be a greater mistake than this. It would be impossible, under the present arrangement, for any person to prosper in any of the "military districts," for the operation of the law must be upon all ; the very effort to separate one class from another would destroy both. It would be like dividing the wheat from the tares while both are in bloom. Any northern man who goes South now, whatever his "loyalty" may be, will find himself on precisely the footing of the worst "rebel." except that he will be permitted to vote with the dirty, filthy, ignorant blacks, who have just emerged from slavery.

It is high time than our voters began to think of these things for themselves and ceased to follow the lead of men who are guiding them to ruin. The tendency of all the prominent measures of the Mongrel party is against poor inen and favorable to the rich. When our onle do their own thinking the Demo cratic party will rule.

---- Farmers are compelled to take groenbacks for their grain, mechanics have to take them for the articles they have to sell, morchants have to receive them for their goods, and day-laborers must take them in payment for their work ; why should not the boud holder receive them for his bonds? Why could not enough be printed to lift the millions upon millions of dollars worth of bonds, that are held by the rich, and thus stop the interest upon them? It would save to the tax-payers one hundred and fifty millions of dollars per year. Mongrelium don't want this however. It favors the rich and oppresses the poor, and the the farmer and mechanic, laboring man who votes with that party, simply helps to build up a power that will trample hum

lition paper that comes tothis place, and yet it is filled up with just such reports,reports that have neither truth nor the emblance of truth about them. They flook in droves about the Jefferson street depot on the arrival of the cars, to hunt work, as they say; but mothing can induce them to go in fo the country.
