· DEATH OF DR. CARPINED -It Is with extreme sorrow that we record the death of Dr Ira D Canfield, late of Renove, but for merly of this county He was well known to most of our readers, and all of them will be filled with sorrow for his sad fate. The following from the Clinton Democrat, gives a full account of the occurrance:

This community was surprised and shock-This community was surprised and shocked to learn by tolograph, on Tuesday moreing last, that Dr Ira D Canfield, for many
years an honored citizen of this place, but
latterly of Renovo had been found dead in
the river at the latter place. The telegram
gave no particulars, and our people here,
who all loved the renerable and estimable
physician, were left to conjecture the cause
and the manuer of his death.

physician, were left to conjecture the cause and I then manuer of his death

From all that we have been able to gather in regard to the facts of this most melancholy affair, there is but little doubt that the Doctor-committed suicide He was found in the river, face downward, in shallow water; and, as we understand was sorrcely oold when discovered We believe he was found by some young men or boys who first observed a hat floating out the water and on going a little further up the river as was they supposed, some old clothes This exoticel their curiosity, and they proceeded to inspect the singular object, when, to their antonishment and horror, they saw the dead body of poor old Dr. Canfield. With all the presence of mind they could command under such exciting circumstant cert, they got the body out of water, and relegraphed the said fact to his friends here. It is supposed that Dr. Canfield commissions and the same to their sationishment and horror, they got the body out of water, and command under such-expediting croumstand under such expediting croumstand under such expediting croumstand under such expediting croumstand under such expedition of mind it is said however, that in a contractation with all thousand in the state, while this croumstand under such expedition of mind it is said however, that in a contractation with sominitories from the sominitories of mind the mitations. Be sure you good.

The state of the state of the same and among them capable physicians, assert that there were undoubted evidences of a softening of the brain. Be this as it may, it is certain that the Dootor, in his seasons of loneliness, has ever since been a prey to melanchely reflections, and these may have been, realirecity the cause of his death.

Dr. Ira D. Canfield, sr., was born at Norristown. New Jersey, on the lat of February, 1800, and was consequently 61, years of age.
