### Our Victories!

Day, breaks! Light shines in upon the darkness that has enshrouded our country, for the past six years! The people have awakened, and Mongrelism has ben vrushed to the earth. From Maine to California, wherever elections have heen held, victories-solid, substantia', overwhelming victories-hava attended the good old cause, and crowned the efforts of they men who have fought so nobly for the success of Democratic principles. Surely it is the precursor of better times for our country. When Culifornia, Ohio, Connecticut and Pennsylvania, raise their united voices in behalf of the government of our fathers,days of Democratic prosperity.

Never since pilitical organizations were formed, has any party been blessed with such a succession of glorious triumphs, as has fallen to the lot of the Democracy within the past six months. No where that elections have been held -no place that the people have had an opportunity of expressing themselves, but the Democratic party and its tried principles have been endorsed, while its -moting in blood, and reveling in luxury at the expense of the laboring masses for the past six years, have been spureed and repudiated. The day of public rabbery, negro equality, violations of which has just been bathed in brothers. law, it urpations of authority and offidial tyring, has gone by The people his spiners and the wretches, who have been larding it over the county with a high hand plandering pring ing, taxing, and commutting the most onfare is outrages ween the rights of the Somes on lithe privileges of the peoply, I ted with them at the late election she wit bear and heed their voice. And while we repoice over the glorious results that have attended our efforts, and the bought future, that Democratic triumpla all other interests ought to support the followed the old flag- who have buttled that no interest in the country can flour with mongrel corruptionists, traitors and ish or get justice done it under the ad terants, for the past six years, remember that our work is not yet done. Not until the last vestage of abolitionism is driven from our country -- not until cv r, office in the gift of the public is filled gence r, other in the will of the public is blied the members of that party, and but a few weeks since Ex Gov Circus the the a mosted out to those who have so at keeks and willfully beta ed the old Winebook Caylette in a trust-worlds treather to and except speech at Huntingdom, that the Re-

the full measure of rights and liberties, there we cannot be for the mona chief of the Ex-Gov, are correct we should doctrines of New England succeed in like to know what has become of the overthrowing them, and not until the peaceful and prosperous times of our bless and cheer us, can we say that our cents postage, and troubled work is fully accomplished. We have with the following

werable logic is combined with native eloquence of a very high order, and we doubt if this section of the State can produce his superior as a stump speaker He was some two weeks in Centre county, and spoke every evening, and we doubt whether those radicals who heard him have ceased yet to hear his warn ings and denunciations ringing in their His addresses are full of points, which he drives home with such energy that no one can forget them. The seed which he sows will produce fruits for a score of years, for he teaches the sound principles upon which Democracy and the government are based-in such a to learn. Our thanks are 'hereby tendered him on behalf of the Democrati of the county, with the assurance that he will long be held in remembrance by

Ex Gov. CURTIN, in a speech at that the "Republican party had sucked all the brains out of the Democracy. If Anny's assertion was correct, the "said brains" could not have been distributed very fairly among the members of the Mongrel organization, or he would have received some, which would have prevented him from making such an agregious ass of himself, as he did in efforts to best CAMERON for the United States Benate last winter

How THEY STAND AT HOME. - As an the fact, of WILLIAMS' receiving in his and favorable to the laboring man than GEARY received last fall, of McVIT-TY running behind the State ticket in his own county, and ROBISON receiving fewer votes in his county, than any other man on the ticket. Where they are Lest known they run the fewest votes.

AUREE - Mrs. CHARLES SUMNER, wife of the crasy fanatic who represents puitan Massachusetts in the U. S. Senate, has left her busband, and gives as her reasons for so doing that he is a domestic tyrant, and needs, just what the Democrats have always said he de-

perved-a good hanging.

### Why they Helped Us Since the defeat of Mongrelism in the

late elections, they are setting up the how that our success here is owing mannly to the assistance we received from the liquor interest. This come. with a tad grace when we recollect the fact that Grant, the abolition governo of Pennsylvania, has interposed his par don to save those most guilty of viola tions of the hour law, if they were of his party, while Democrats, for very trivial offences against the liquor laws, have been obliged to suffer the extreme penalties. GEARY, and those who elected him to power, have used all the influ ence the law put into their hands, both rightfully and wrongfully, to gain strength for their party. In the name of justice they have persecuted Demo while the convicted criminals who be longed to the other party bave been

nardoned. This has been observed all over the State, as well as in our own

racy have incidentally been assisted by the liquor interest, and the reason is perfectly plain. Every thing which has received the attention of the Radical Maine repudiates Mongrelism, when has been injured by their influence There has been unfair and unjust legislation in regard to liquors, and those who have been legislated against turn of course to the party which is always in a Union of States, and the good old favor of equal and exact justice to all men, of whatever state or persuasion." The Democratic party never has and never will agree to sacrifice the rightof any ique or class of men on earth simply to accomplish its own persona pro-perity. It is not because our party is any more favorable to the manuf.c ture and sale of intoxicating drinks than thre and sale of moon array the opposition, that those who are persecuted turn to us for protection, but, because it is seen and known of all men that we will right wrong whenever we have power, and will do justice to a man opponents, who have held brigh carnival or a principle whether we like them or not. The same function spirit which ran mad about "slavery" and sundered the Union and now keeps it divided, bas and staken to reform (2) the intemrate men of the country. The hand blood fass heavily, and smites sorth

port the oliv party which can protect them from wrong.
In this vicinity every Equot man who voted with the Raber's heretofore vi cause here they all vote blindly under the party lash, and never look to couse We are ready to admit and to queace aver that the liquor interest as well as point e to our country, let us, who have Democratic party for the simple reason ministration of any other party

N. L. ATWOOD, Esq.—The Democracy of this county are under obligations to this gontleman for the efficient aid he gave us in the late campaign. # The Result.

The result of the late election is truly grand In our own own State we have entirely overcome the Mongrel majority, of seventeen thousand, of last fall, elceting our Supreme Judge, and reducing the mongrel majority on joint ballot in the Senate and house of Representatives from thirty-three to fourteen. In Ohio we have reduced the abolition majority manner that these who hear are bound of forty-two thousand last fall, to four hundred, and changed the Senate and House from lifty-three abolition majori ty on joint ballot, to four Democratic esides defeating the nigger voting a mendment to the State constitution, over fourty thousand majority. In Iowa the abolition majority of thirty-eight Huntingdon on the 4th inst., asserted thousand of last Year, has been cut down to less than twenty, and in Indiana the majority for that party, has been almost entirely wiped out. Who would'nt feel like rejaiding over such glorious re-

GROWING BRIGHTER. -Things are looking more favorable for the future of this country than they have since the dark cloud of Abolitionism closed over us in the Autum of 1860. Never before were such crops gathered all over the evidence of the unpopularity of the rad- country as there have been this year ical candidates, we need only point to never were the seasons so smiling own county, this year 4,098 votes less and not for six years have the political heavens been so bright with promise for the future of the laboring man'sgovernment: The party which made the Constitution and administered the government through all the prosperous years it ever had, is once more tri umphant, and the party which has wrought so much evil is fleeing from the wrath of an outraged people. There is

hope for as yet in the future! FREL ABOUT ALIKY.—That class of Democrata who would not go to the election because they did nt believe we could succeed, and the Mongrels who did go, and were so beautifully whipped.
