### THINGS ABOUT TOWN AND COUNTY-

HUNTING, -- Quite a number of our townsmen are now in the mountains, trying their luck at shooting deer. He hope some of them may prove successful, jand that who ever does, may be liberal enough to divide with ye editor.

REVISAL -Quille an extensive revival has been in progress in the M. E. Church, this place during the past two weeks We hope it may continue for months to come, as there is plenty of room for much good to be done in this neighborhood

for the Relicule of the melancholy days have come to them politically, and they go about the circuit looking is disconsolate as mournels at a funeral. They are now in the sero and yellow leaf of political exishope of resurrection

Should by Reputato - We do not know those place it is to have it done, but unless the bridge across the canal at Milesburg is repaired in some way or other, shortly, some body mry have a nice bill of damage to pay It is not only a disgrace to the place, but it is an outrage upon the travel ng community to have such an unsightly and dangerous looking thing upon any pub

How HE KNEW -On the morning after the election, a Democrat from the country, remarked to us that the moment he got with in the borough limits be knew that the election had gone right. We asked him his, reasons and he replied 'last fall I came into townthe morning aftert he election, and upon every corner and in every alley I seen n abolitionits trying to yeart this morning I couldn't see one about and I concluded that the election had gone the other way, or they would be drunk and vomiting round town just an they were last year

Should be Look to Too .- There is scarce an hour passes, but we hear complaints of suffering by those in destitute" effectimatan ces about town, and almost every day some kind hearted person is round trying to raise food or clothing from private individuals to help the needy On Tuesday last a lady called at this office, asking alms for one of the borough pumpers. She told us that the poor old woman, for whom she was trying to raise something, had not spufficient food to keep body and soul together, nor stothing to keep her war.a. Why is duis? The poor tax in this borough is outrageously high, -it is collected-closely, and there is certainly a sufficiency to keep all the poor in comforeable circumstances, if distributed properly. There is a leak somewhere, and it should be hunted up. Themse is no cause why any should suffer, when the people are taxed as we are here, to relieve the needy, neither would their be any necessity for ladies attempting to raise funds to prevent suffering among the destitute, did those having in charge the peoples money do their duty. Where the fault lies we do not know,-but there is some one to plame and he should be ferreted out "It is bither negligence, or public robery, that is causing the suffering now being felt by those wh bave become objects of charity

PRESERVATION OF ORGANS -The American Organs are warranted for five years, to remain in order and in tune; but, in order that they may be fully protected, they should not be experson to extreme dampness; the wood being so perfectly seasoned, that absorption of the mulatreceived be more readily perceived, and thus cause the work to swell so as to be unfit for use. The impression generally prevails that an instrument should always be kept closed, which re erroneous, for the keys should be daily ex-posed to the light, the absence of which will cause them to turn yellow. When there is dust made in the room, as in sweeping, the instrument then should always be closed, as a small particle of dust being drawn into the reed will

BABIES -BABIES that die under two years of age, die from die ease caused from teething. I state this, moth ers and nurses, that you may exercipe a greate degree of care over your little ones during thi time. It is a well-eatablished fact it at a great majority of those who die in the prime of fifte contracted the disease in childhood, which through the negligence of mother or nurse was allowed to pursue its course unchecked, and which night have been arrested in its earlier stages by very simple means. It is for this perpose we offer you this valuable remedy, sale in hands of any one, and sure to releve in simost every case. Upon one other point we wish to give you some valuable information, and which if observed will save you much trouble and many an anxious sleepless night. It is

that sleep is "Nature's sweet Restorer," and in is a fact beyond contradiction that an easy, quiet and natural sleep at regular intervals, and especially at night, is absolutely necessary to health. It is during repose that the system strengthens and fortifies itself against the exhaustive influence of waking hours. Infants and children require twice the sleep of of an adult, and unless they obtain it by some means they are irritable and restless, the system is more expisive to cold or other exciting causes, more expised to the ravages of disease, and easily prostrated thereby. For producing a quiet, natural and restreshing sleep, one from which the child will awake, feeling refreshed and gleeful. Many of the articles put in market are FOUND

DEAD and worthless, but the "Nursing Syrup" has no equal. For the benefit of mothers and nurses, we would advise you, when the child is restless feverish, thirstr, head hot, face Gaushed, tongue codted, pulse quickened, to give a warm bath, followed by appropriate does of the "Nursing Syrup, and

IN THE

IN THE

Syrup you will find an article whose magical effects will gladden your hearts. All we said is for you to try one bottle, and if you are not fully satisfied after using half oil, return it to the agent and get your money. Try it when your children are teethings and you will find this Syrup par excellent. It renders that process easy, and causes the teeth to penetrate the gums, without producing those constitutional and oftimes fatal symptoms so often witnesser in children. Try it in nervous, wateful and irritable children. It can be given to the most dollcate infant with perfect safety. J. H. WHEELER, Sole proprietor, No. 221, Water S. T. T. Elmira, Chemung co., N. Y.
