The Southern Elections.

The elections of this year at the South candid man, who either loves or regards the institutions of this country, that the Radical party, if continued in power, will utterly subvert the great American republic. The Democratic party has for years been warning the people that one of the objects which Mongrelism meant to accomplish was the putting of the ballot into the hands of the blacks of

Long ago we warned the people tha Abolitionism meant disunion, and that if the abolition party came into power the Union would be severed and the whole country convulsed in a fearful giv-We were then hooted at, derinively called "Union savers," "false alar mirte." and every name by which the opposition could possibly express contempt for our opinions and warning-Yet they came into power, the union used divided and the war come, just as we had predicted.

In this case, as in that, our oft re-peated warnings of what the Radicals meant to use a victory of the North over he South for, won for us, from them, every term of derision and contempt which they could fined or invent And when in sober, staid old Pennsylvania, with her unyielding "back-bone" of 'stolid Dutch," we went from one elec-"stolid futch, we went from one elec-tion to another and still our pegroes did not vote it began to be said by the opnot vote, it began to be said by the opposition that we told deliberate unti uths when we charged them with being favorable to negro suffrage, because it did ana, Hon Jas Brooks of New York, not follow their dearly won victories here But we now appeal to every honest and decent man, if we were not correct in what we said, and if the Radical organization is not forcing negro suffrage upon the people of this country wherever they the wower to do so Of course, it is not forced upon us here, for just as its advocates say, we have too much of the Franklin district. The same thing is Dutch clement in Pennsylvania for But let any one turn for one moment to the South, and see enacted there the farce which is called an election and say if it is not far worse to give the ballot to the signorant, barbarous

dare not even avow their principles here and in Ohio they defeated a proporition to do such a thing by an overwhel ming vote. Yet the party which pretends to be representing the will of the people, by using the money and power conferred by those very States, ties the hands of the white people of the South who will not support them, without any regard to their principles during the late war-and drives the blacks to the polls like sheep and votes them as one nan voting for tens of thousands.

It will not do for those who have supwomen, and give contracts to public there would give contracts to public they may have had, and deserve only to be governed by the "loyal" blacks. Whoever uses such an excuse as this is either worfully ignorant himself or calculates to impose upon those who are Leaving out of view entirely the evile must follow the introduction of so large a negro element into the voting population of the country. and saying tothing about the meanness of using the powers of government to enforce measures which we will not ourselves and his to, there is an entirely selfish view of the sent down and give contracts to public there to public there to public there words from ment and employs the these acts don't recommend them to the Mongre Poontmaking Contract the sent to imagine what will be governed by the "loyal" blacks. Whoever uses such an excuse as this is either worfully ignorant himself or calculates to impose upon those who are Leaving out of view entirely the cilism of Firther and Stantons should be overlooked, the next two that will claim the honor (?) of the Mongre Inom this county. The fact needs no further words from me, I merely mentioned in as a proof of the authenticity of the Katorian and the country are bawling for himself or calculation, will be the Devil and Than Streams of Interest and the country are bawling for himself or calculation, will be the Devil and Than Streams of Interest and the country are bawling for himself or calculation, will be the Devil and Than Streams of the same of the same more of the same and there is an entirely reliable view of the same and themself or rest. In short the was perpetiated by the world in the two supportant himself or the glaring beautiful and them to the Mongre Inom of the calculation of the south stanting that the two proportant himself or the glaring beautiful and them to the Mongre Inom of the same and them to the world and them to the Mongre Inom of the Saw Stanton and the same perpetiated by the authentity of the Katorian and them to the world and them to the was p the question which must appeal to white men every where.

Thousands of people from the North desire to emigrate Southward, where lands are oheap and the climate the best in the world. The moment they pass Mason and Dixon's line, they are under negro rule, and the very thing they ropudiate with disgust here, is forced up on them by the act of the sectional party of the North This is one view of the case, but there is another In all press. depths and congressional elections, the depths and congressional elections, the for the bondholder's interest and principles will presses the same. sease, but there is another In all presiinfluence that a Northern white man ple too, but Radicalism says no. influence that a Northern white man does, and negroes will pase laws to govern us as well us the worst "rebe the South. If the Northern people deaire this state of things to continue, they ad better continue to support Congress. If they think it is wrong, they can change it in the coming year by supporting the Democracy, the only party which ever kicked out of office in these different can restore the country to the harmony it enjoyed before Abolitionism came into
