cessful as a Preventative.

It is now over thirty years since the above celebrated Pills were discovered by Dr. Duconco of Paris, during which time they have seen extensively and successfully used in most of the public institutions—as well as in private practice—of both bemispheres with unparalled success in every case, and it is only at the uncert of the thousands of Ladies who have used them that he is induced to make the Pills public for the sileviation of those suffering from any irregularities whatever, as well as to prevent an increase of family where health will not permit it. Feunles peculiarly lituated on those supposing themselves so, are cautioned against using these pills while in that condition as the proprietor assumes no responsibility after the above admonition although their mildess would prevent any mischief to health oth rwise the Pills are recommended.
