Gloomy Prospects for the Laborer. lo M

The leading manufactures are toduciby their force and it is afficult matter for a mechanic or working man to obtain employment of any kind. In that city alone more than fifteen hundred laboring men are unemployed, many of whom de

ployers agree to a reduction of wages. Some of the factories in Delaware county, Pa., have reduced the wages, and the rumor indicates a further reduction or stoppage. The workmen in the ma-chine works at Bordontown have been discharged, and thrown out of employment. The Louisville Journal says that there are more people out of employment in that city at present than was ever

known before We might extend this chapter to almost any longth, and tell not the half. And yet with these facts staring in their

faces the mongrelists persist in their destructive scheme of reconstruction, destroying the interest of the south and business and commerce at the north. Fifty thousand men and women who

have been accustomed to earn their living by daily toil are now out of employ-dollars per week for each person.
