THINGS ABOUT TOWN & COUNTY

RESUMED WORK -The glass works in this place went into operation again last week. We are told that their prospects are very good.

The Grass -It is said that the grain crops in some of our lewer counties is going to be very poor next harvest. It seems early yet to pronounce an opinion

THIRTY SNOWS - Wa recollect that some one said just Autumn that we would have thirty snows during the present Winter. From the indications now, the prediction is in a fair way to be fulfilled. We have not kepf count, but we never known so many snows before.

LOCHMAN'S INK -We have often wondered why chemists in this country could not as well discover the secret of making writing fluid as those of Europe, and have been long looking for something after the style of Arnold's writing fluid manufactured in America. We have been using Lockman's link for about a month, and find it to flow as freely from the pen and to be as good in every respect for writing as any fluid we ever used. The only question about it is in regard to its durability, and from all appearances it is equal in this particular to any other ink. . It is much theaper than Arnold's fluid, and will no doubt super-screen atirely if it proves as good on a longtrial as on a short one It is for sale at the Bookstore of Kinsloc & Bro .

SAD ACCIDENT .- Mrs. Palmer, of Potter's Mills, went to the wood house for the purpose of getting some kindling. and while in the act of splitting a board the reaf fell on her, breaking her neck and arm. One of her sisters went into the house and inquired of the children where their mother was, but they could not tell her. The house being cold she became suspicious that something was wrong. She made inquiry of the neighbors, but they could not give her any information. Some time after Mr. Palmer came home and saw that the wood house had fallen down, and upon going there, saw his wife's apron, when the horible truth flashed upon his mind. She was millions of dollars, with an insurance of
