THINGS ABOUT TOWN & COUNTY.

COLD WEATHER.—For the last month we have had extremely cold weather, and snow sufficient to make the most splendid sleighing.

THE NEW JAIL.—Will soon be ready for inmates, and if it is as strong as its appearance indicates, jail birds had better carry on their business outside of this county.

Rev. T. DeWitt Talmage, will lecture in Bush's Hall, on Tuesday evening the 18th inst., subject, "Our New House."

LOST BY THE FIRE.—Dr. Beattie, whose office was destroyed by the late fire in this place, lost a valuable medical library, which he has been collecting for thirty years. No amount of money can make good such a loss as that.

The Messrs. Baum & Co., who were burnt out by the late fire have opened up with a new and splendid stock of liquors, under "Our House." Mr. Edward Brown, who was also burnt out, has opened an entire new store in the parlor of his dwelling house, two doors below the Catholic Church.

THE SCRANTON FIRE.—The fire in Scranton, of which we gave a telegraphic report last week, destroyed a great deal of property; but the losses we are informed, were nearly all covered by insurance, and the business of the place is going on as usual. Dale & Keen, whose loss was reported heaviest, are again carrying on business as usual.

SPRING CREEK NEVER FREEZES.—We notice a good deal of surprise among passengers on the cars, when they come in sight of the pure waters of our beautiful mountain stream, and find them entirely free from ice. There are few streams anywhere which will bear as much freezing as Spring Creek and remain open.

PRISONER ESCAPED.—At Williamsport, on Monday night last, the Sheriff of Tioga county, came into the cars with six prisoners for the Eastern Penitentiary, for the burning of property in that county, for which they were notorious, one of the men was also an insurance agent—While on the way down, one of the men had occasion to go into the closet, and while there, made his escape out of the window with the hobbles on. Up to Wednesday morning nothing had been heard of him.

LUMBER OPERATIONS.—Though the Winter has thus far been very fine for cutting and putting in lumber, we understand that operations are not carried on to any great extent in the pine regions of this county. The unsettled condition of the country, and the fluctuating currency with which we are cursed are the principal causes for the suspension of all sorts of business in this county.

AN AVALANCHE.—On Monday morning last, a vast quantity of snow and ice which had accumulated on the roof of the Brockerhoff house, slid off with a crash to the pavement below. The tin and slate at the edge of the roof were injured considerably; but most fortunately, the fall occurred when nobody was in the way. All the doors in the row were barricaded for a time, but no injury was done further than already stated.

PUBLIC IMPROVEMENTS.—There is a spirit of opposition in this county to all public improvements which are likely to cost a few dollars. We are sorry to see this spirit exhibit itself whenever a road or bridge is to be made, and often defeat every effort to obtain a greatly needed improvement, without those who oppose it ever having examined its merits. It is very short-sighted in those who own lands and pay taxes, to thus blindly fight what would really be of greatest service to them. The value of property in any community depends upon the number and extent of the public improvements, and the paltry sum paid out in taxes will be returned tenfold in the increased value of all real estate in the vicinity. We hope soon to see evidence in our county that a wider view has been taken of this subject than heretofore.

FRIGHTFUL RAIL-ROAD ACCIDENT.—Mercifully Escaped.—An accident happened to a freight train on the Catawissa railroad, at Stranger Hollow bridge, one of the high trestle-works for which this road is so celebrated. Investigation showed the accident to have been caused by a broken flange on the wheel of a car somewhere in the centre of the train.—The car ran two miles after breaking the flange, before leaving the rail. After running upon the bridge, the wheel slipped from the rail to the timber upon which the trestle is laid, splitting it completely. This, of course, checked the momentum of the cars, and caused them to jam into one another. As all trains run very slowly over these high bridges, the engineer succeeded in stopping his train and saved it from going off the bridge, all except one car and the caboose, which were the last two cars.—These were precipitated over the side of the bridge, down into the hollow, a distance of sixty feet! In the caboose was Frank Line, a breakman, who strange to say, escaped with a few slight bruises and some burns—the wreck having been set on fire by the upsetting of the stove in the caboose. His escape from instant death may be regarded as almost miraculous, falling as he did from a perpendicular height of ninety feet, amid the wreck of two cars which subsequently took fire.—Ed.

ANOTHER CASE OF SMALL-POX.—There has been one more case of small-pox in this place, and we suppose rumor will magnify it a thousand fold. We have endeavored to give the exact truth in regard to the progress of this disease ever since the first case occurred here, believing that it is better for the town and for every body concerned that the whole truth should be known. The facts in this case are that a stranger was attacked with small-pox at Garman's Hotel, and was removed the next day beyond the limits of the town. There is now no more danger of any one contracting the disease at Mr. Garman's or any where else in town, than there was before this case occurred. There is much more danger in traveling in the cars just now, of taking small-pox, than there is of taking it anywhere in Bellefonte.—There is not now a single case in the borough, so far as we can ascertain by careful inquiry, except the one above referred to.

LOTTERY SWINDLING.—Nearly every exchange paper we open contains an account of some venal man or woman having been swindled by New York and Philadelphia lottery sharpers. It should be generally understood that all lotteries, gift enterprises, &c., especially when managed by unknown and unauthorized persons are nothing more or less than swindles. Lotteries of any kind, or to speak in plain terms, gambling, whether done in a church under the name of "chance," or in the back shop of some denier in tin pencils, brass watches and glass jewelry, in the large cities, and all persons who profess religion or the possession of common sense, would do well to avoid everything of the kind. If you want to aid a charitable cause pay your money at once. If you want any fancy article, buy it fairly from an honest and respectable home dealer; but don't gamble for your own sake, and for the sake of the rising generation who are influenced by your example.

CHEER UP.—It is said that a man in Kokomo, Indiana, lights his house with gas obtained from an artesian well in his own cellar.

"A lot of Copperheads, whose hatred to a brave Union Soldier is as intense as it was to the Stars and Stripes during the rebellion, are circulating petitions against the pardon of Wm. Campbell convicted for the shooting of Constable Bair in Potter township, while at the same time, some of these Canada draft sneaks carry petitions praying for the pardon of Grove convicted of meddling with stolen store goods.—Bellefonte Press.

Consistency is a jewel. The invincible John George has, by the above significant language, again appealed to the passions of the Jacobins and the entire mongrel mass of corruption known as Abolitionism, is stirred up, and the filthiness and stench which these disjunct maggots effuse, since John George's famous article on the Copperhead question, would almost be sufficient to stop the noses of ourang Outangs. (John George's adopted cousin) but the result of the elections of last Fall and the prospect of similar results in the future have sent a thrill of joy to every white man's breast and perfumed the political atmosphere with a gentle zephyr that has wafted the venom of John George's doctrine across the ocean, even to the shores of the Nile where he himself hopes to be at no very distant time, to enjoy the "felicitous blessing of Negro equality."

If John George will call upon us at our desk we shall set all business and excuses aside and will repair with him to the house of a brave Union Soldier as he or Campbell, who is willing to acknowledge that he carried, not a petition—but a remonstrance against the petition which was circulated, praying, beseeching and threatening for release of Campbell whom J. G. unintentionally acknowledges to have been convicted of the worst crime on record in this county, viz: That of the killing of Mr. Bair

whilst discharging the duties of his office legally, and if he has been duly and fairly convicted, why not respect the laws that have been made for the protection of our citizens. But J. G. has no more love for Campbell than he has for the negro—it is simply votes he wants and by this act he expects to secure one vote more for which he will be fully remunerated by the meagre thanks of official incumbents. Mr. Bair was a good citizen, a consistent man, and, from the fact that all who live in the community where he lived, with one exception, and that a stay-at-home Republican, signed the remonstrance, it is evident that his memory is still respected by a grateful people. The remonstrance against the petition was, in some places, carried and signed by soldiers, who bear honorable scars received during the war—scars from wounds received while gallantly facing the Confederates, which we infer from the fact that those marks are upon their faces. John George calls us "Canada Sneaks," and he also says, "we carried petitions praying for the pardon of Grove." This is another of his false fabrications, not to say lies. We never saw Canada, we never were drafted and we never saw a petition for the release of Grove, and if we had been asked to sign such a petition we would have refused emphatically, because he was fairly convicted and we do not wish to encourage crime. We do not delight in the unhappiness of others but we do love justice. We pity Campbell but we also grieve to think that Bair was ushered into eternity without a moment's warning, and we also feel for his widow and fatherless children.

Talk of the inconsistency of rebels and encourage crime in one instance and the country will be flooded with thieves, murderers and vagabonds. Now we have found you guilty of falsehood and how can your friends believe you again. But this is not the first, the tenth nor the hundredth time that your true character has leaked out and it will not be the last time unless you be speedily transferred to your natural element away down in Africa, where banjos, violins and jubbless are the chief order of the day, and where you will certainly be elected President of "de camp" by acclamation which will be rather more honor than you deserve.

THE SINGER SEWING MACHINE.—The superior merits of the "Singer" Machines, over all others, for either family or manufacturing purposes, are so well established and generally admitted, that an enumeration of their relative excellencies is no longer necessary. The Machine is simple, compact, durable and beautiful. It is quiet, light running, and capable of performing a range and variety of work never before attempted upon a single Machine, using either Silk, Twist Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest material, and anything between the two extremes, as the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felting, Rimming, Binding, etc., are novel and practical, and have been invented and adjusted as, usually for this Machine. W. W.
