THINGS ABOUT TOWN & COUNTY.

LENT commenced on last Wednesday week. Easter comes this year on the 12th of April.

Snow OF THE WINTER .- We have been told, by one who pretended to know, that eight feet of snow have fallen during the last three months

OUR PANEMENTS.-The condition of our pavements, is perfectly disgraceful In many places, a lady can scarcely pass at all. We believe there is an ordinance on this subject, and we should like to price; see it enforced.

SMALL-Pox. - There have been no new cases of this disease, so far as we can uscertain, for a week of two, in this pince. The "scare" has greafly subsided and we begin to see-the faces of our friends from the country, in town once

THE CLOCK - Velock might as well be no clock at all, if it had no dial, and that is about the condition of the one on our Court House Won't some one see to having it fixed. It would cost but a

BRELEFOATE LECTURE ASSOCIATION .-Phis association have secured the service of Rev A A. Willitzs, D. D. of Philadelphia, to deliver one of his celebrated fectures on Monday evening next, in Bush's hall Subject "Sunshine" We berpeak for him a full house.

Syow Scoan. -Due of the most severe snow storms we have ever known to visit the country, prevailed on Monday last It was such an old fashioned storm as we have heard the old folks talk about, but never-saw anything like it at this time of year. It begins to look as if the earth had stuck fast in the Winter part of her orpit, and had ceased to make progress towards Summer

ALABARD - The people living along the West Brach are beginning to feel seriously alarmed, lest the immense quantities of snow in the mountains above them may go off in such a flood as devasted the valley in 1865. There is good. reason for such alarm. But we hope the thaw may be gradual as it was last year, and thus prove a ble sing instead of a curse.

THERE has been no proof whatever that the man killed in Clearfield, was killed by Democrats, or by, or with the consent of Democraty, and any such charges, from whatever source they come are simply lies. It may be that those with our party, but that the party had anything to do with it is a shameful 'lie, fabricated by unscrupulous persons in the opposite party for our injury.

LEAP YEAR .- Almanao makers inform us that the year 1868 is especially set apart for the ladies-the unmarried portion we mean -who by time-honored custom and concession, are entitled to do a good many things during this year, that they are denied in any other. They have a right to ask their "feller" to take a sleigh ride, go to a concert, or to church: they have right to draw "their weasel" and pay the bills; and more, they have the right to do the courting to put their arms around a piece of corduroy, and even "pop the question"

NEWSPAPERS .- As a general thing the influence of newspapers is greatly underated. ()nly those who have paid much attention to the matter estimate influence at its full value, and they patronize papers in every way possible. Men of business who advertise liberally, and merit the favors of the press, in a little while make up, in an increased trade, a hundred fold what they have laid out. Such men as Bonner, Barnum and others, who have made immense fortunes by thus investing a few dollars, know exactly what the influence of newspapers is worth in this respect. But there is another influence which they exert which is often everlooked .--Any intelligent man can tell by the very appearance of the children of a family whether or not their parents take the papers, and when the children of such as de not take them grow up, they will for A. D., 1867... warm the money which sharper people will pocket. Parents, furnish your children with papers, and keep them posted on the news of the day.
