

The Democratic Watchman.

TERMS.—\$2 per year when paid in advance, \$2.50 when not paid in advance and \$3.00 when not paid before the expiration of the year.

OUR AGENTS.—We have authorized the following gentlemen, to receive and receipt for subscription to the DEMOCRATIC WATCHMAN: ISAEL J. GREENBLE, Gregg twp. JOHN H. REYNOLDS, Penn-twp.

THINGS ABOUT TOWN & COUNTY.

—W. Kealsh, esq. has returned to this place to practice law.

—Court commences in this place on Monday next.

—Gen. James Burns paid us a pop visit on Friday last.

—There are eight prisoners in the jail at this place at the present time.

—In some parts of the county the roads are almost impassable for mud, in others, they are dry and dusty.

—The people of Bellefonte pay higher taxes than do the residents of any other town in the State. Why is it?

—Judge Linn is having that part of his farm lately taken into the borough laid out in town lots.

—A "high court," not of impeachment, but of bankruptcy, was held at the Brockerhoff house in this place, on Thursday last.

—A company is now being formed in this place, for the purpose of manufacturing some kind of a patent door and gate hinge.

—The residence of Mr. Faxon, near Phoenix mills, took fire on Friday last, and the entire roof was burned off before the flames could be subdued.

—The new School Buildings to be erected during the present season, are to stone in place of brick—scarcity of the latter article.

—Trout are said to be very plenty this spring in the streams hereabouts—Strings of the "speckled beauties" are brought into town every day.

—The residence of Mr. George Bashor, near the Buffalo Run Post Office, in Patton township, was destroyed by fire on Saturday last.

—Centre Hall, rumor has it, is as a county seat of this county, or, of a new county, composed of the townships south of Nittany Mountain.

—The wind was so high in this neck of woods on Saturday last, that it blew a load of Boards off a wagon that was left standing in front of Bush's arcade.

—The new jail will be ready for occupancy by the last of May or the first of June. When finished it will be one of the most complete prisons in the State.

—Hundreds of ransons from Clearfield and adjoining counties passed over the Bald Eagle Valley R. R., on their way home from down the river during the early part of the week.

—But few of our farmers have as yet sowed their spring grain, in consequence of the rough weather and wintry storms that have visited this section lately.

—The Presbyterians of this borough are to have a twenty-five thousand dollar church, provided the front pew members can agree upon the "style" of architecture.

—Within the past five years, the value of property and the population of Bellefonte, have both been doubled. Is there any place with the same chances that can boast as much?

—The foundation of Gov. Cutler's new house is almost finished. If the building is not completed until he is elected Vice-President, it will be an improvement Bellefonte will never have to boast of.

—Not true, the report that Clark the insurance agent was shot at Lock Haven. His partner, Mr. Hutchinson, of this place, says Clark has not been in Lock Haven for ten months. The whole story is said to be an infamous fabrication.

—The managers of the Millin and Centre county R. R. are again talking of completing the rail road from Milroy, its present terminus, to this place. We wish there were reasons to believe that it would not end in talk.

—A little child belonging to a Mr. Brady, residing in the neighborhood of the "sunny side" lime kiln, fell from the rail road-bridge into Buffalo Run, on Friday last, and narrowly escaped drowning.

Work has been commenced on Bush's new hotel, near the depot. When finished it will be the largest hotel in this section of the State, with the exception of the Hordie House, at Williamsport, and the Logan House, at Altoona.

—We hope the Grand Jury when it meets next week, will take a peep at the back buildings at the Court House. In their present condition, if they are not a nuisance, we do not know what would constitute one.

—The legislature, at its recent session, incorporated a company for the purpose of building a turnpike from Pine Grove in the upper end of this county to Belleville in Huntingdon county. Whether it will be built, and how it will pay when finished, are questions to be answered yet.

—The Patton township darkies have got into trouble again. On Monday night last, three of them, two Millers and a Deligo were lodged in jail in this place, charged with stealing meat from James Chambers and other residents of that township.

—The students of the Huntingdon High school, held a reunion, in the school room, at that place, on the evening of the 28th ult. A very palatable refreshment was gotten up by the students and teachers. The first extreme was oyster soup, the last, ice cream. The mean, of course, was tempting, and handsomely arrayed, on a sumptuous table, by the generous hearted ladies, who spared no pains to satisfy the most fastidious. After refreshment the string-band from Nittany Hall, enlivened the party with delightful music for about an hour. The students afterwards enjoyed themselves hugely for quite a time in social plays and pleasant chat. During the evening, and for sake of variety, the students very agreeably surprised the teachers, by presenting him with a very beautiful album—quilt, each student having a patch with their name, and complimentary lines, in it. It was presented by Miss Sarah Gandy, in behalf of the school, with a very appropriate, modest and graceful address. The teacher had not the least intimation of it, until it was handed him; of course he kindly responded to the presentation address; wishing that they may have encircled around their fair brows, the wreath of purest peace, sweetest happiness and highest prosperity. The following names are the donors:

—The greatest amount of time consumed by the ladies in dressing and arranging their hair must make any article which would lessen their labor particularly desirable. Ring's Vegetable Ambrosia leaves the hair in such condition as to render the dressing and arranging a very easy matter. It imparts to that splendid glossy appearance so much admired, cleanses the scalp from dandruff and all humors, and prevents baldness; promotes its growth, and restores gray hair to its original color. 14 ct

—New Beer and Snook Store.—Our Good friends P. McAffrey & Co. has just opened in the room formerly occupied by Messrs. Bush & Yocum as a law office, a boot and shoe store, where everything in that line can be bought just as cheap if not a little cheaper than any place else. Mr. McAffrey is an experienced workman, an excellent judge of material, and an honest man, and those patronizing him can rest assured that goods purchased of him will be just as recommended. We hope to see his store crowded daily. This store will be open to-morrow, when their splendid stock can be examined. They purpose selling from 10 to 20 per cent. cheaper than any other establishment.

—BETTER WOOD OR COAL, just as conveniences may suggest, will answer for the "Barley Sheaf," the incomparable Cooking Stove, introduced by Messrs. Stuart, Peterson & Co., Philadelphia. This stove is winning encomiums from the trade, and families in all sections, so rare a combination of excellent qualities it has been found to possess. As spacious stoves, claiming to be wood and coal burning, and to have other features identical with those of the "Barley Sheaf," are in circulation, our friends will be particular to give them a wide berth, and go in for the genuine only—only this and nothing more. For sale by W. W. Wetzel, Milesburg Pa. 12 31

—LOOK AT THIS.—Something less than five hundred persons called at the Boot and Shoe establishment of Peter McMahon, during the past week and left their orders for Boots and Shoes. The people are coming to understand that they do better at McMahon's than any where else in Centre county, as he has rubbed out high prices and takes pride in giving to his customers an equivalent for their money. I would here state that Messrs. Harrel and Prince two of his workmen, cannot be excelled on fine sewed work, rendering a neat fit, good work and great satisfaction. All in need of anything in the line of Boots and Shoes will save money by calling at McMahon's north east corner of the Diamond on BRIDGE.

—CHECKING'S PIANO.—Sitting in the New York Academy of Music, at the last Philharmonic Concert, we were particularly charmed with the Piano performance. Mr. Hoffman is well known an imitable player, but certain it is that the best of good players cannot make good music except upon a good instrument. From Checking's Piano, which was played on that occasion, every run, scale, phrase, or isolated note reached our ears in its perfect integrity. Not a sound was lost, from the great sweeping chords and ponderous octaves to the most delicate scale or pianissimo trills. This is not the case with all pianos. Those from many other factories, although possessing many fine points, are yet unequal in tone, and the bass not unfrequently drags the treble. The listener misses the clear, bell-like, silvery sweetness of a genuine Checking's, which makes this piano so great a favorite in the parlor, and which is so highly appreciated by Thalberg and Gottschalk. They are the Pianos fit for a musical parlor. The reputation which the Chick brings have earned during the past forty years is well deserved.

—CHEAP ST IN THE MARKET.—MERCHANTS LOOK TO YOUR INTERESTS.—W. G. Ching is selling goods at wholesale fifty per cent. lower than they can be bought in New York. Citizens, countrymen one and all do you wish a superior article of Tea and Coffee call on T. C. Merrill, "the Maine man," the best Sugar and Syrup, visit W. C. Dickson, who is now closing up his business and will sell at cost.

—Captain Woodward takes this opportunity to inform you that he has just returned from New Orleans with a large assortment of Tobacco and Segars, and declares he will not be undersold.

—W. V. Lant's says that he is least injurious when cut, and accordingly offers "lovers of the weed" a large and varied assortment of pipes. If he cannot sell he will give away.

—D. H. McEwen thinks that for the ladies have been neglected, and he now offers them a large variety of Scotch, Congress and every other kind of Shuff, at very low prices.

—S. M. Black, of Illinois, is in with a large amount of Western wheat. He and J. W. Woodward, with whom he is in partnership, are determined to undersell all the grocery men in this part of the Commonwealth.

—J. C. Bowers knows the reason for Buck wheat will soon be over, and as he has a large amount on hand yet, he offers it to the public at half price.

—Goodwell & Butler are in the hardware business, and will spare neither pains nor money to please all who call upon them.

—The Dry Goods Department is under the management of Messrs. McConnell, W. S. Wagner, Jarkins, Wells, Swoley, Dunlap,

—The Mongrels are continually harping upon the assumption that Democrats favor repudiation of the debt incurred in destroying the Union. Have they no words of condemnation for the Jacobin congress which keeps the States asunder by its legislation? or is the terrible bugbear of Democratic "repudiation" to be held up to view, in order to divert attention from the destructive schemes of the party in power? It certainly looks like it.—Er

—The Dry Goods Department is under the management of Messrs. McConnell, W. S. Wagner, Jarkins, Wells, Swoley, Dunlap,

both, Swoyer, Rogers, Seagert, & Lerch and better salesmen we never met anywhere. when a man enters simply to see and be seen, he is sure to make a large purchase and go on his way rejoicing in the thought that his pockets would not burn him much.

Solomon German, of Baltimore, has opened a large Commission House for the accommodation of the trading Community.

J. P. Jameson, who has had an extended experience in the manufacture of boots and shoes, has, in order to meet an imperative demand, opened a large Shoe Store, where he is prepared to sell everything in that line of business.

M. E. Taylor, to meet the wants of the little folk, has opened a cake and candy store.

Do you ask where all these advantages and accommodations can be had? We answer, in the actual Business Department of the Williamsport Commercial College.

There is also a large bank connected with the store—the largest in the United States—has a capital of nearly three million dollars—and there are no counterfeits on this Bank. J. M. Clippo is President, and M. E. Rankin is Cashier.

A much larger number are still in the theory department, and soon as it is known what effect the impeachment will have upon the prices of goods in Liverpool, Halifax and elsewhere, they will also enter into business, of which you will hear hereafter.

A large number having made their fortune in this business, have gone elsewhere to bless mankind.

Quite a number are engaged exclusively in writing, half at least belong to the fairer sex, of whose proficiency in the art you may learn by calling on or addressing J. E. Davis, principal of the above mentioned Williamsport Commercial College.

Howell, Gilliland & Co., are just receiving a magnificent lot of Spring and Summer goods. Persons in town at court next week should call and see them, even if they do not desire to purchase.

STOVES!! STOVES!! Isaac Haupt has got already a new supply of Shears Antidust Cook and Parlor Stoves. They have proved themselves to be the best stove out for burning either hard or soft coal that give their own ashes, make no dust, economize fuel and are the best makers in the world, and have more conveniences than any other stoves now in use. People in want of stoves would do well to call at his Ware Rooms near the Depot and see his stock before purchasing elsewhere, as by a neglect of this they may be sorry as many have been already. 12-30-11. Reapers & Mowers.

THE WORLD'S REAPER AND MOWER. Its compactness and symmetry will at once arrest every mechanical eye. The frame is of solid iron and is of a single piece. The journals, shafting, and gearing are all secured in the most substantial manner and can never change their relative positions. THE GEARINGS ARE ALL CUT OUT OF SOLID IRON.

and run with the precision of clock-work—thus obviating the self-destruction common to all harvesting machines heretofore invented.

A neatness from case inclose the works and protects them from dirt, water, grass, rust and all other external causes of destruction.

Such gearing, in such a frame, and protected thus, can always be relied on to do the work required and last an ordinary lifetime.

Many other advantages possessed in this machine will be explained in our Annual Catalogue, which will soon be in the hands of all our local and traveling agents.

We build only two sizes of the World's Reaper, differing only by weight, capacity and cost.

No 1 (large size) cuts 4 feet and 4 inches in grain, about 5 feet in grain, and as a mower cuts \$200, as a mower and well rake attachment \$275.

No 2 cuts in grass, 4 feet, and in grain a little less than 5 feet, costs \$175 and \$225.

We are confident offering you the cheapest machine in the market. It costs but one fourth more than a rough machine and will last four times as long.

E. BALL & CO. CENTRE, O. ISAAC HAUPT, Bellefonte, Agent for Centre, Millin and Clearfield Counties. Sub agents wanted. We will have 2 Reapers on exhibition in front of the Court House during Court week, one with self-rake and side delivery, where they can be seen until harvest. 12-20.
